This paper drawn up and signed by chief observers at 7:30 p.m. June 26, 1959.

Positions of UFO's observed from Nioanai Station at 8:28 p.m. and 9:15 p.m. June 26, 1959. Signed [redacted]

WEATHER: VARIABLE SKY - SCATTERED CLOUDS TO CLEAR AT FIRST BECOMING OVERCAST AFTER 10;10 p.m.

APPROX. HEIGHT OF CLOUDS - 2000 ft.

NOTE: This determined by relationship of clouds to highest point visible of mountains. As UFO's were often below (under) clouds and their glow gave off a wide halo of light reflected on clouds, it follows that UFO's descended to below 2,000 ft.

The first sighting over the sea seemed not more than 500 ft. above the water at times.

Size of UFO "A" (across) (as appeared)
Full HAND-SPAN at arm's length (8 inches) when UFO's at closest.

Color
Dull yellow (perhaps pale orange(except when moving, then very bright. When finally
