RESTORING PUBLIC TRUST THROUGH UAP TRANSPARENCY AND WHISTLEBLOWER PROTECTION

TUESDAY, SEPTEMBER 9, 2025

U.S. HOUSE OF REPRESENTATIVES
COMMITTEE ON OVERSIGHT AND GOVERNMENT REFORM
TASK FORCE ON THE DECLASSIFICATION OF FEDERAL SECRETS
Washington, D.C.

The Task Force met, pursuant to notice, at 10:05 a.m., Room HVC–210, U.S. Capitol Visitor Center, Hon. Anna Luna, [Chairwoman of the Task Force] presiding.

Present: Representatives Luna, Mace, Burchett, Boebert, Burlison, Crane, Gill, Crockett, and Lee.

Also present: Representatives Biggs, Begich, Ogles, Perry, Grothman, Titus, and Moskowitz.

Mrs. LUNA. This hearing of the Task Force on Declassification of Federal Secrets will come to order.

Welcome, everyone. Without objection, the Chair may declare a recess at any time. Additionally, without any objection, the following members are waived onto the Task Force for the purpose of questioning witnesses at today's hearing: Representative Biggs of Arizona, Representative Begich of Alaska, Representative Ogles of Tennessee, Representative Titus of Nevada, and Representative Moskowitz of Florida. There are no objections.

I recognize myself for the purpose of making an opening statement.

OPENING STATEMENT OF CHAIRWOMAN ANNA PAULINA LUNA REPRESENTATIVE FROM FLORIDA

Mrs. LUNA. Good morning, and welcome to the hearing regarding Unidentified Anomalous Phenomena (UAP) disclosures. For too long, the issue of unidentified anomalous phenomena, commonly known as UAPs, has been shrouded in secrecy, stigma, and in some cases outright dismissal. Today, I want to state clearly that this is not science fiction or creating speculation. This is about national security, government accountability, and the American people's right to the truth.

I have spoken now to a number of whistleblowers from the military to include the infamous Eglin Air Force Base incident that occurred when myself and former Representative Matt Gates, as well as Representative Burchett, followed up on a lead from multiple active duty Air Force pilot whistleblowers that alleged that the

Ms. BOEBERT. Yes. Well, I thank you all for your bravery. We are out of time here. Thank you so much for coming forward, and we will do everything that we can to ensure that you are all protected. Thank you for trying to bring truth and transparency to the American people.

Madam Chair, I yield.

Mrs. LUNA. I now recognize Mr. Burlison for about 5 minutes.

Mr. BURLISON. Thank you, everyone. It takes such great courage to come forward, and we acknowledge that, and I hope that you see that we are taking that seriously, and so very thankful for what you are doing today.

I am also very thankful for previous witnesses that have come forward. I see Matthew Brown in the audience. He courageously stepped forward as a witness. I encourage everybody to look and seek his testimony.

I want to thank the people that came in our first hearing, Ryan Graves, David Grusch, David Fravor, and in our second hearing, Admiral Gallaudet, Lou Elizondo, and Mr. Gold, and the many others that have come forward. We hear you, and it is time that we—you know, enough is enough. It is time that we take action.

Look, I have not jumped to the conclusion that I believe that there are, you know, aliens coming from another planet, but I am open to that. And I think that it is our responsibility, especially when we are seeing that we have a government that is actively blocking information from us.

Just last night, I tried to get an amendment onto the National Defense Authorization Act that fit in the germaneness of that bill to have UAP disclosure. And conveniently, it was named nongermane, mostly deemed by staff, not even an elected official. This is the kind of stuff that we repeatedly see.

Last year, we were blocked by someone in House administration from being able to receive a full briefing from AARO, so not an elected official, but someone in staff blocked us. And I have had it. Enough is enough.

I want to queue up a video that I have been given. And before it starts, I am going to describe, this was taken October 30 of 2024. This video is of an MQ–9 drone tracking an orb, or this object, off the coast of Yemen. You will see that another MQ–9 launched a hellfire missile. You cannot see that drone. And I am not going to explain it to you. You will see exactly what it does.

Mr. BURLISON. This is when it zoomed out. So, you can still see it traveling. So, Mr. Knapp, have you heard about, you know, events like this occurring? And what information might you have?

Mr. KNAPP. I have heard about events like this. I have heard about this event. Jeremy Corbell and I talked about it in one of our episodes a while back. We did not have the video, though. There are servers where there is a whole bank of these kinds of videos that Congress has not been allowed to see, that the public has not been allowed to see. Occasionally, some of that stuff gets out in the wild, and it comes our way. It should be going to you. You know, the public should be seeing this stuff. And why you are not allowed to, I do not know. But that is a hellfire missile smacking into that UFO and just bounced right off, and it kept going.

they do not want us to have it, but there are ways to work around it, so we are kind of figuring that out.

Pursuant to Committee rule IX(c), the majority and minority will have an additional 30 minutes each to ask questions of the witnesses. Without objection, so ordered.

With that being said, if you guys want to jump in the queue, I know Representative Crane, Burlison, and likely Burchett have a few more questions. I will just start out with two, and then I will pass the buck to Burlison.

Burchett, do you have anything?

Mr. BURCHETT. Yes, I——

Mrs. LUNA. Burchett and then Crane.

Just real quick, Mr. Knapp—and short answers, please, because of time—how much of these alleged Russian crash retrieval documents have already been physically out there? So, I mean, percentagewise of the documents that you submitted to Congress, what was public already and what was not newly released?

Mr. KNAPP. Maybe one percent.

Mrs. LUNA. Okay. So, the rest of it should be predominantly new information?

Mr. KNAPP. Yes.

Mrs. LUNA. Also, can you just elaborate real quick? I know you had, I think, mentioned a Thread III program, but also alleged in those documents, I got through maybe half of them last night. There is a lot, and I do not speak Russian, contrary to what people might allege. What does the Thread III—was there any specific programs that existed within the Soviet Government or groups to specifically investigate this by name real quick?

Mr. KNAPP. It is a number. There is a number in those documents I gave you. There was a larger program that actually had three subprograms that was—Thread III was the name I got, and then the DIA guys who looked at it figured out there was a much larger organization. It is——

Mrs. LUNA. And it is listed in those documents?

Mr. KNAPP. Yes.

Mrs. LUNA. Okay. Thank you. Real quick, I would like to ask the Committee to replay that video that Burlison had played earlier. I want to ask every witness here, specifically ones that have sensor training or have been able to recognize some of this movement real quick. So, if you guys can please roll that real quick.

Okay. While this is still rolling, Mr. Nuccetelli, real quick, yes or no answers, are you aware of anything in the U.S. Government arsenal that can split a Hellfire missile like this?

Ms. LEE. No.

Mrs. LUNA. And do whatever blob thing it did and then keep going? Nothing?

Mr. NUCCETELLI. Nothing.

Mrs. LUNA. All right. How about you, Chief Wiggins?

Chief WIGGINS. Nothing to my knowledge, ma'am.

Mrs. LUNA. Okay. And how about you, Mr. Borland?

Mr. BORLAND. I prefer to answer that in SCIF.

Mrs. LUNA. Okay. Does this video scare you guys? Yes or no?

Mr. NUCCETELLI. Yes.

Mrs. LUNA. Wiggins?
