CHECK-LIST - UNIDENTIFIED FLYING OBJECTS

1. Date 8 July 1947 Incident # 1
2. Time 0930
3. Location Maroo Air Field, Maroo, Calif
4. Name of observer 1st Lt Joseph C. McHenry
5. Occupation of observer Billeting Officer in Charge, Maroo AAFld.
6. Address of observer Maroo, AAFld
7. Place of observation ground - Maroo, AAFld
8. Number of objects 2 at first - 1 sometime later
9. Distance of object from observer N/S
10. Time in sight N/S
11. altitude Approx 8000 ft
12. Speed 300 MPH
13. Direction of flight 320° due north heading
14. Tactics Performed a tight circle
15. Sound N/S
16. Size N/S
17. Color Silver
18. Shape disc-like or spherical
19. Color detected N/S
20. Apparent construction N/S - Apparently metallic
21. Exhaust trails N/S
22. Weather conditions N/S
23. Effect on clouds N/S
24. Sketches or photographs None

enroute to his office and before entering heard one of the local aircraft in the traffic pattern. Looking up he observed the aircraft and slightly to the left he saw 2 silver objects of either spherical or disc-like shape moving about 300 MPH at approximately 8000 ft heading about 320° due north. He immediately called S/Sgt Gerald E. Hansen, T/Sgt Joseph Ruolo and Miss Jannette Marie Scotte. Witnesses all verified the sighting and the direction of the objects - all three stated that the objects were moving toward Mojave, Calif.

Witness was sure it was not an optical illusion or that the objects were not weather balloons since they traveled against prevailing wind and since the speed at which they traveled and the horizontal direction taken indicated that they were not weather balloons. Furthermore they could not remain at the same altitude so consistently if they were weather balloons. Witness then attempted to get personnel (medical officers) to further verify the sighting but by the time the additional personnel had arrived at the scene the original objects had disappeared due to the speed at which they were traveling. However, two of them sighted a third object of a silver spherical or disc-like nature at approximately 8000 ft traveling in circles over the north end of the airfield. Five out of the seven personnel saw this object. All looked away from the object several times to make sure there was no eye strain. He stated that this object performed too tight a circle to be any type of known aircraft.

Evaluation: Confirmed by other sources.

Witnesses: S/Sgt Gerald E. Hansen
T/Sgt Joseph Ruolo

23. Effect on clouds N/S
24. Sketches or photographs None
25. Manner of disappearance N/S
26. Remarks: Witness, HCO in charge of Billeting Office, Marroc AF Base.
(over)

About 0945 Lt McHenry, Billeting Officer in Charge, upon returning from the Post Exchange contacted the witness, Sgt Ruval and asked him to look up in the sky. Witness observed two (2) flying objects which appeared like two flying discs or saucer-shaped silver-colored objects flying in a northwestern direction at approximately 350 to 400 MPH at an altitude of about 7500 or 8000 ft. He could hear no motor roar and was positive that it was not a balloon.

He states: "I am of good health and sound mind and this was no hallucination"

Evaluation: Confirmed by other sources.

23. Effect on clouds **N/S**
24. Sketches or photographs **None**
25. Manner of disappearance **N/S - Apparently in distance**
26. Remarks: **On 8 July 47 at 10:00 in the morning witness observed (over)**

flying discs traveling in a northwest direction at an estimated altitude of 7,000 or 8,000 ft at about 300 to 400 MPH.

Witness states he was in the Billeting Office when 1st Lt McHenry called him and 2 other witnesses outside. He was then asked what he saw. Sgt Hansen states he saw 2 objects and that he was positive that they could not have been aircraft, weather balloons or birds. Due to the altitude at which they flew they gave off a definite reflection from the rays of the sun. A few minutes later after the original two discs had disappeared he saw another object at the same altitude doing certain maneuvers such as flying in a tight circle. Its very tight maneuver precluded its being any known type of aircraft.

Witness states: "I have 20-20 vision"... "I have been flying in and have been around all types of aircraft since 1943 and never in my life have I seen anything such as this."

22. Weather conditions **Sunlight**
23. Effect on clouds **N/S**
24. Sketches or photographs **N/A**
25. Manner of disappearance **N/S - apparently in the distance**
26. Remarks: **Witness was called by Lt McHenry together with T/Sgt (over)**

Joseph Buvolo and S/Sgt. Gerald E. Hansen to the front of the S.O.Q. "A" Bldg. Pointing up in a direction directly above the group he asked them to explain what they saw. Witness states that she saw 2 silver-colored disc-like objects flying toward Mojave, Calif, one directly back of the other, at a speed of about 300 to 400 MPH at an altitude of approximately 8,000 ft. She listened carefully for a few minutes but could hear no drone such as occasioned by any aircraft. Casting her eyes for a moment in another direction and then looking back to the same spot she was able to distinguish the same objects again. Assured that it was not eye-strain, she was convinced the objects were not weather balloons due to the horizontal position in which they traveled. Nor could they have been birds since they reflected the sun's rays.

Some three or four minutes after the objects had nearly disappeared she saw another flying object similar to the above-mentioned objects. It was silver colored and disc-like in shape. Unlike the first two, it flew in a tight circle, neither losing nor gaining altitude, at approximately 8,000 ft. She thought it performed too tight a circle to have been any type aircraft with which she was familiar.

INCIDENT SUMMARY SHEET
(To be filled out and retained in file)

Incident # 2

1. Date of Observation . 8 July 1947
2. Time of Observation . Approximately noon
3. Where was Object(s) Sighted . Murco Air Force Base, Murco California
4. Observer's Position . . Ground
(i.e. ground, air, control tower, etc.)
5. Name and Address of Observer . . . Maj. Richard E. Shoop
Murco Air Force Base, Murco California
6. Occupation and/or Hobbies . Chief of Technical Engineering Div.
7. Attention Attracted to Object (s) By . Col Gilkey
8. Number of Object(s) Sighted . 1
9. Size of Object(s) . Pursuit airplane
10. Color of Object(s) . . . Aluminum Colored Surface
11. Shape (Sketch if Possible) . . . Unconventional Shape
12. Nature of Luminosity . . . Reflected
13. Estimated Distance of Object from Observer . Five to Eight Miles
14. Speed of Object(s) . . . Slowly
15. Time in Sight Eight Minutes
16. Tactics . . . The object moved from an intermediate altitude in an oscillating fashion almost to the surface of the ground and then started climbing again.
17. Sound Made by Object(s) . . . Not Stated
18. Direction of Flight of Object(s) . . North
19. Apparent Construction (Of What Material or Substance) Apparently metallic
20. Effect of Objects on Clouds and/or Exhaust Trail Not stated.
21. Weather Conditions Existing at the Time . Not stated
22. Peculiarities Noted
23. Summary of Incident . At approx. noon 8 July 1947, Maj. Shoop, at the attention of Col Gilkey observed 5 to 8 miles to the North what appeared to be thin metallic object. It appeared to be metallic because the method in which it was flying, the sun was reflected from an apparently aluminum colored surface.

6. Address of observer Murco AAF, Murco, California.
7. Place of observation Ground
8. Number of objects one (1)
9. Distance of object from observer not stated
10. Time in sight not stated
11. Altitude not stated
12. Speed not stated
13. Direction of flight not stated
14. Tactics The object Col Gilkey saw he stated he believed at the time to be paper and of no significance or the object not important enough to be reported.
15. SOUND not stated
16. Size not stated
17. Color not stated
18. Shape not stated
19. Color detected not stated
20. Apparent construction
21. Exhaust trails not stated
22. Weather conditions not stated
23. Effect on clouds not stated
24. Sketches or photographs none
25. Manner of disappearance not stated

26. Remarks: The following is a statement given orally by Colonel Gilkey, to Captain Harry D. Black, Intelligence officer on 11 August 1947. Colonel Gilkey, stated that the object he saw, he believed at the time to be paper and of no significance or the object not important enough to be reported. There was nothing clearly enough seen by the Colonel to make any further

reports justifiable.

REMARKS:

Statement given by Major J. C. Wise, Test Pilot, Muroc Army Air Field, Muroc, California.

On 7 July 1947, at approximately 10:10, while running up the XP-54 on the ground I noticed everyone was looking up into the air. Off to the north about 10,000 to 12,000 feet altitude, was an object that I assumed at first to be a weather balloon, but after looking at it for a while I noticed that it was oscillating in a forward whirling movement without losing altitude. It was traveling about 200 to 225 MPH, and heading from west to east.

The object was yellowish white in color and I would estimate that it was a sphere about 5 to 10 feet in diameter.

CHECK-LIST - UNIDENTIFIED FLYING OBJECTS

Incident #11.

1. Date 8 July 1947
2. Time 11:50
3. Location Area # 3, Rogers Dry Lake, California.
4. Name of observer Captain John Paul Strapp
5. Occupation of observer Flight Test
6. Address of observer Maroo Army Air Field, Maroo, California.
7. Place of observation Observation Truck, Area #3, Rogers Dry Lake, Calif.
8. Number of objects One (1)
9. Distance of object from observer 20,000 feet
10. Time in sight 90 seconds
11. Altitude lower than 20,000
12. Speed slower than the maximum velocity 50-60 aircraft
13. Direction of flight Slightly north of due west against prevailing wind
14. Tactics rotation or oscillation of slow type (suggested by 2 fins or nobs on the upper surface which crossed each other at intervals)
15. Sound not stated
16. Size About 50'
17. Color silvery
18. Shape resembled a parachute canopy at first then assumed ovaler shape
19. Odor detected not stated
20. Apparent construction It presented a distinct ovaler outline, with two (2) projections on the upper surface which might have been thick fins or nobs. These crossed each other at intervals, suggesting either rotation or oscillation
21. Exhaust trails None 1. of slow type.
22. Weather conditions not stated
23. Effect on clouds not stated
24. Sketches or photographs none
25. Manner of disappearance Dropped to a level such that comes into line of vision of the mountain tops.
26. Remarks:

(over)

On the 5 July 1947 at 11:50 the undersigned was sitting in an observation truck located in Area #3, Rogers Dry Lake, was gazing upward toward a formation of two (2) P-52's and an A-26 aircraft flying at 20,000 feet, preparing the carry out of a seat ejection experiment, when I observed a rounded object, white aluminum in color, which at first resembled a parachute canopy. The first impression was that a premature ejection of the seat and dummy had occurred. This body was ejected at a determined height lower than 20,000 feet, and was falling at three (3) times the rate observed for the parachute which ejected thirty minutes later. As it fell it drifted slightly north of due west against the prevailing wind, toward Mount Wilson. The speed, horizontal motion could not be determined, but appeared slower than the maximum velocity of P-52 aircraft.

As this object descended through a low enough level to permit observation of its lateral silhouette, it presented a distinct oval outline, with two (2) projections on the upper surface which might have been thin fins or poles. These crossed each other at intervals, suggesting either rotation or oscillation of slow type.

No smoke flames, propeller arcs, engine noise, or other classifiable or visible signs of propulsion were noted. The color was silvery, resembling aluminum painted fabric, and did not appear as dense as a parachute canopy.

When the object dropped to a level such that came into line of vision of the mountain tops, it was lost to the vision of the observer.

It is estimated that the object was in line of vision about 90 seconds. Of the five (5) people sitting in the observation truck, four (4) observed this object and made remarks about it. These people include:

Mr. Lenz - Civilian, Wright Field, Dayton, Ohio.
(Other names not given)

The following is my own personal opinions about this object:

1. I think it was a manmade object, as evidenced distinctly by the outline and functional appearance.
2. Its size was not far from 25 feet with a parachute canopy.
3. The path followed by this object appeared as though it might have been dropped from a great height.

Seeing this was not a hallucination or other fancies of a sense.

10. Time in sight N/S
11. Altitude N/S
12. Speed Great speed
13. Direction of flight 2 discs flying south, 3, in westerly direction
14. Tactics Dipped up and down in oscillating motion at great speed
15. Sound None
16. Size ~~Large~~ Large
17. Color Could not be determined
18. Shape Round - disc-shaped
19. Odor detected N/S
20. Apparent construction N/S
21. Exhaust trails N/S - No visible means of propulsion observed
22. Weather conditions N/S
23. Effect on clouds N/S
24. Sketches or photographs None
25. Manner of disappearance Quickly - before any detailed observation could be made
26. Remarks:

(over)

Officer McDowell stated that at approximately 1705, 4 July 1967 while he was on duty at Precinct #1 and feeding the pigeons in the parking lot back of the station he noticed that the pigeons became quite excited over something and fluttered in the air. Officer McDowell in looking around to see what had disturbed them saw 5 large discs in the air east of Portland; two discs flying south and three flying in an easterly direction. He stated he could determine no color to the discs but advised they were flipping in an up and down oscillating action and were traveling at great speed. He was unable to give an estimate of the speed or altitude of the discs as they were out of sight before any detailed observation could be made. Officer McDowell advised that he notified the Police Radio who immediately broadcast an alert. He saw no indication of any motivating force nor heard any sound coming from the discs and could give no description other than round.

Incident # **7**

Witness was getting out of his car when he observed one disc flying in a Southwesterly direction over Portland. Disc was aluminum in color and traveled at terrific speed - faster than any flying object witness had ever seen - It left no vapor trail or smoke trail. ~~It was moving at a terrific~~ speed. Estimated altitude approx 30,000 ft. Thought the disc was definitely some type of aircraft but could not give further description as speed made observation difficult. No sound was heard from the flying object. He thought it appeared radio-controlled because the disc could change direction at a 90° angle without difficulty.

26. Remarks: (over)

Members of the Harbor patrol at the foot of Irving Street stepped out when they heard the all-car alarm. Coast. E. A. Fren, Harbor Pilot, A.P. and T. J. K. M. G. Hoff, saw the objects and said they appeared to be going south high over the New York Harbor. Coast. E. A. Fren and the Harbor patrol then from a distance whether the objects were planes.

"The objects would oscillate and sometimes we would see a full disc, from a half-disc shape, then nothing at all," he reported. The objects looked like a bright chromium at one off a car which would, disappear and reappear.

There was a time in the night at the time, all were certain that the discs were not planes.

PHILADELPHIA: Continued report

From the Oregon Journal - 5/28/1947, Portland, Oregon
(Refers to incidents 5, 6, 7, 8 and 8a)

Whatever they are, there are some disc-like objects flying around in the sky.

Or else eight (8) Portland area policemen and deputy sheriffs who sighted the objects Friday, numerous private citizens, the crew of a United Air Lines plane over Boise, Idaho, and a congressman who claims to have photographed one near Seattle, are all wrong.

In Portland, the alert was sound over police radio at 1:00 P. M. Friday, after the First State Station received a score of calls and the alarm was overhead. Within seconds, two patrol cars started hunting the mystery craft.

FLASHES SEEN, NOISE LACKING.

First to report in were Patrolmen Walter Dwyer and Robert Ellis in Car No. 37, who stopped near Oaks Park. Both World War II veterans and civilian pilots, they sighted traces of the objects within 30 seconds traveling at great height and speed over the park. They reported they heard no engine noises but saw flashes. The objects seemed erratic and changed direction at flight. The patrolmen agreed that without knowledge of the size of the objects it would be impossible to judge their speed or altitude.

Patrolman Earl Patterson in car no. 15 stopped at SE 4th Avenue and Foster road to look eastward from where the discs were reported. Telling him the discs were coming out of the sun. He saw nothing. Later the patrolmen reported the discs were heading southeast. The craft seemed to be changing direction at will. "I didn't flash or hear anything," he said.

DISCS NOT PLANE.

A former aircraft engineer, he said the object was unlike any plane he ever seen. He thought it came and disappeared because it could change direction at a 90° angle without difficulty.

Members of the Harbor Patrol at the mouth of SE Irving street started out when they heard the all-out alert. Capt. W. A. Brown, Lieut. R. L. T. Antel and Patrolmen E. C. E. all saw the objects and told they appeared to be going south high over the Globe Mills at terrific speed. Capt. Brown said the flashes kept them from a certain as whether there were three or six.

"The discs would oscillate and sometimes we would see a full disc, then a half-moon shape, then nothing at all," he reported. The objects looked like a shiny chrome hub cap or a mirror which wobbled, disappeared and reappeared.

There was a place in the sky at the time, but all were positive that the discs were not planes.

AIRLINES CREW CONFIRMS REPORTS OF FLYING DISCS. FIVE SEEN.

Circumstantial reports of flying discs in the sky Friday came from the crew of a United Airlines plane over Boise, Idaho, and a coast guard cutter near Seattle, as well as from Portland area police and citizens.

E. J. Galt, Captain of the Ballenger, told Coast Guard officers that he and his crew saw five objects in the sky Friday night. The objects moved against the sunset shortly after the plane took off at 8:30 p. m., he said.

"They moved clearly," he reported. "I followed them for about 10 minutes. They were about 45 miles away. Finally the objects disappeared. We were unable to tell whether they outpaced us or disintegrated."

NOT AIRCRAFT.

"We can't say whether they were aircraft or not," he said. "But whatever they were, they were not aircraft. They were not in the air."

In Seattle, Commander Frank R. Galt, U. S. Coast Guard cutter Ballenger, flying over the city at night, saw five objects in the sky. The objects were "like flying saucers," he said.

In a Pioneer, New York City, a pilot reported that he saw two flying discs, one of which was "like a saucer" and the other was "like a saucer with a tail."

A Pioneer, N. Y. Coast Guard cutter Ballenger, also reported that it saw five objects "like flying saucers" in the sky Friday. The objects were "like flying saucers" and "like flying saucers with a tail."

In Vancouver, Wash., S. L. Galt, Jr., U. S. Coast Guard cutter Ballenger, and Frank R. Galt, U. S. Coast Guard cutter Ballenger, saw five objects in the sky Friday. The objects were "like flying saucers" and "like flying saucers with a tail."

OTHER SIGHTS

Col. U. R. Dodson, Commander of the Oregon National Guard, made an inspection of this area from the air after the discs were reported here. He said he saw nothing "suspicious."

Only seven military airplanes in the air at one time at the port were 23 B-29 bombers near Astoria.

Despite all the reports, at least two persons remained unconvinced of the existence of the discs. Al T. Sanford, Holgate manager, said he is a "disc skeptic" and "very religiously skeptical".

Earl Walker, 30, of 800 1/2 W. Burrage Avenue, telephoned the Journal to say the newspapers for "reporting a hoax". He said he saw discs in the sky about a month after an airplane crash over his house. To him the objects looked like bits of aluminum foil, used as cigarette wrappers.

JOHN RICH DAVIS.

Several like sightings were reported in the Portland area. P. J. O'Brien, 7, 1, 1/2 W. 1st Ave., said he saw three flying saucers over the Willamette river near the Rose Island bridge about Jan. 10, 1946, and during the week, they were not brought in the east in the four sections. He said they resembled metallic discs floating in the air.

L. J. O'Brien, 10, 1, 1/2 W. 1st Ave., said he saw a disc-like object flying over the river on Jan. 10.

At 11:30 a. m. Lawrence J. B. 1, 1, 1/2 W. 1st Ave., reporter sighting a disc "like a saucer" flying over the river on Jan. 10. He said it seemed to be flying slowly.

JOHN RICH DAVIS.

Thomas W. Deger, 1232 NE 59th Avenue, said he sighted two discs over silver objects flying over the river on Jan. 10. He said he saw them on Jan. 10, 1946, and during the week, they were not brought in the east in the four sections. He said they resembled metallic discs floating in the air.

J. J. B. 1, 1, 1/2 W. 1st Ave., said he saw a disc-like object flying over the river on Jan. 10.

B. J. B. 1, 1, 1/2 W. 1st Ave., recovered from Rose City golf course a piece of a disc-like object on Jan. 10. He said he saw it on Jan. 10, 1946, and during the week, they were not brought in the east in the four sections. He said they resembled metallic discs floating in the air.

SILVERED DISCS, REPORTED BY PLANE.

WORTH, J. J. (AP) - A Eugene railroad worker said Friday he saw silvered discs being dropped out of a light airplane in the sky.

E. F. Smith, 21, Eugene, an assistant conductor for the Southern Pacific Railroad, said he was driving on a Eugene street when --

Capt E. J. Smith, UAL Pilot, reports to SAC the following: that he and the entire crew of a westbound UAL plane were flying over the Pacific Northwest, Everett, Wash. At first he saw 8 discs flying what appeared to be a "loose formation." They called Betty Morrow, Stewardess, to the front of the plane to verify that they were actually seeing the discs. She saw them too. Then they saw 4 more of them, three cluster together, and a 4th flying by itself, very off to the distance.

Capt Smith described them as follows:

5 "somethings" which were "thin, disc-like, the bottom and top surfaces being flat." Silhouetted against sunset exactly after the plane took off at 6:14 a. m. "We saw them clearly," he reported. "We followed them in a southeasterly direction for about 45 miles. Finally they disappeared. We were unable to tell whether they were discs or something else."

He couldn't describe the shape. "We don't know if they were discs or not, but we saw them clearly." But when they were, they were not at a distance. They were "very close or close."

Witness strolling in his orchard in an easterly direction when his grandson called his attention to "the funny flying fishes in the sky" Looking up he saw 2 strange looking craft flying very fast in a very straight course from West to East but slightly to the North. The sun was to observer's right and the sky cloudless which seemed to make the objects reflect the sunlight rather brilliantly. As a result the shape was not clearly evident but he distinctly observed that they did not have wings and they looked like cigars - longer than they were wide. They were flying together, one object to the rear about one city block apart and to the right of the leading plane. They did not dip nor veer from a straight flight in any manner. Seemed very high but observer could not judge this except that they were at least a mile high and possibly 5 miles high. There was no noise nor sound of any kind. The trail or exhaust was very unusual and seemed like a slight trace of steam attached to the plane which disappeared immediately. It did not persist in the air like vapor trails nor like exhaust from ordinary planes and jet aircraft. Witness familiar with aircraft since they fly over his property daily. He was positive that they were not meteors, birds nor ordinary aircraft.

NOTE: Subsequent investigation by this Cmd indicates that Mr. Britton's testimony should be considered reliable. The objects seen are not as yet identified.

On Saturday June 21st, shortly before noon, I was in our yard at home when I happened to glance up at a passing plane. I could not tell if it was a two engined one from one of the Army bases, or if it was at about 10,000 or 12,000 feet. On the mere glance at the plane a bright shiny flash attracted my attention, coming from approximately two or three thousand feet lower than the plane, but slightly ahead of my line of vision of the plane. I first thought that the plane had thrown out some bombs, but this could not be as they (the flashes or disks) were ahead of the plane. One thing different too, it seems to me they were not traveling as fast as the plane. In reality to, now, I am whatever they were, they must have been quite large, being as plain as the largest one was, just so as to. In addition, they were traveling with great rapidity. At least some of the smaller flashes, if not all were as high or higher than the plane, but the vast majority seemed lower, and when I glanced and otherwise, as it is described.

An object was seen in this locality on 11 June 1967. The hour was approximately 9:45 P. and we (my wife and I) were traveling west to the Plantation Golf Course, which is approximately five miles from Boise. On the way, I happened to spot something in the sky which I was then thinking to be a "UFO". It was half circle in shape and fast in motion and silver looking as if it were caught in a ring of the sun. After we stopped traveling and looking the object disappeared. I can't say it was really distant, and from our location, approximately 5,000 feet in the air.

Note: Witness states he has had "Aircraft Recognition" in the USAF about 4 times and is positive that the object sighted was not an airplane

On the evening of June 12 about 6:15, a neighbor and I returning home from another neighbors, glanced into the sky toward the West, and saw what we thought was smoke from an airplane. She mentioned that she had never seen that before, so we stopped to look and listen, thinking we would see the plane. But there was no sound, so we kept looking until we saw a tiny object from which the vapor was emitting. It was so far away we could not determine the size or even the shape. Its only identity was a glister in the sun. We had watched this one for a few seconds, when from the general direction of the sun, another object shot into the sky. It followed the general direction of the first, shooting up and down before settling to a south-easterly course across the sky, where we followed them until they were only a glister and the vapor could no longer be seen. After the objects were gone, we continued to look and to watch the vapor that had been left which now looked like clouds but kept a shape, and this shape seemed to glide across the sky to the East where there was a black streak leading to the horizon. The vapor stayed in the sky for over an hour.

22. Weather conditions Clear with clouds
23. Effect on clouds Cut a path through the cloud & you could see the trail right through the clouds, and it left sharp edges on the clouds.
24. Sketches or photographs Kodachrome film
25. Manner of disappearance Not stated
26. Remarks: (over)

Mr. Woodruff saw the object or flying disc first and said he saw the thing travelling through the sky. We did not believe him at first but when he was so concerned about it we stopped the car and got out. I had my camera so took a picture of it. There was a bluish streak left in the sky which could not have been a cloud formation. It was a definite trail and caused the clouds to break open as it went through. It cut a clear path through the cloud and you could see the trail right through the cloud, it looked to be travelling in a big circle and it left sharp edges to the clouds. The trail looked as if an object passed through similar to that of a pebble leaving a ring in the pond. There was no difference in color. It looked as if the object broke and cloud and left this opening.

through the windshield. Mr. Moore said "look at the sky in the sky".
I looked and saw a bluish black vapor trail. The clouds were very low, about
10,000 to 12,000 feet, and the object was above them and out the clouds
leaving a vapor trail you could see the blue sky, like a knife cut in it. The
object was just over the top of a ridge, as if it was on a peak in half. The
entire course of the object was approximately 1000 feet long. The trail
was bluish black in color, very dark in distance over the blue sky. The
trail was more or less a line across the sky in a straight path. The object was

25. Manner of disappearance Not stated
26. Remarks: (over)

John E. Woodruff saw one of the so called "flying disks" or other object on 10 July, at approximately 1700. We were coming back from a fishing trip, and coming over the hill between here and Stephenville Crossing you can see the clouds formation ahead, I saw the object break out where the clouds opened and it left its trail behind it. It was very clear and the clouds were very scattered. I'd say the approximately altitude of the clouds was from 8000 to 10,000 feet. The object appeared to be a translucent disk like a wheel travelling at a terrific rate of speed and opened the clouds as it went through the air. The disk was travelling horizontal. It appeared to be about the size of a $\frac{1}{4}$ or Constellation. It spread the clouds out about half mile. It cut a clear path right through the cloud. It left a trail dark blueish in color similar to a high power light. The trail was approximately 15 to 20 miles long.

At approximately 1200 noon on the 11 of June I was lying in the front yard of my home. There was a lad mowing the lawn at the time. I looked into the sky and saw ten articles flying from the South to the North at what I would judge to be 8500 ft. The objects were flying at approximately what I would judge to be 350 miles per hour. I distinctly remember that at the time I saw the articles I mentioned it to the lad who was mowing the lawn at the time. I told the lad that the objects were in all probability some sort of Army or Navy test planes from the nearby test centers on the deserts of Southern California. The objects resembled the pictures that I have seen of the XF5U-1, the so called "Flying Flapjack" that the Navy is testing. At approximately 1415 I went back into the yard to sit and lie in the shade. At this time the objects reappeared going from North to South, although this time there were only seven of the articles. When I first saw the original ten objects they were flying in a "v" formation with one object seemingly straggling in the rear of the formation. When the objects appeared the second time they were still in the "v" formation although there was only seven of the objects at this time. I remember at this time that I told the lad, who was still working on the lawn, that probably three of the objects had proceeded back to their base on a different course. I actually thought that this was the case, that the other three objects had probably gone back to their base on the other side of the mountains from Matherfield. I am firmly convinced that the articles I saw are actually some sort of flying machines although I cannot say from where they came or to where they were going.

12. Speed greater than 500 MPH in level flight
13. Direction of flight 120° (East)
14. Tactics Climbed and descended vertically - performed circles - it
- circled one place for duration of 3 360° turns then moved to another position
15. Soud None and again circled
16. Size Larger than C-47
17. Color Amber
18. Shape Round or oval
19. Odor detected N/S
20. Apparent construction N/S
21. Exhaust trails Amber exhaust trail about 5 times the length of object
22. Weather conditions High overcast at 10,000 ft
23. Effect on clouds Occasionally entered overcast
24. Sketches or photographs None
25. Manner of disappearance Levelled off and disappeared into overcast at
- 120°
26. Remarks (over)

Incident # 30a

When first sighted around 1925 Eastern Standard Time, the object appeared to hover in one position for quite some time, moving very little. It disappeared once for about a minute (presumably entering overcast). After emerging below the overcast it circled one place for the duration of three 360° turns, then moved to another position and circled some more. Turns required approximately 30 to 40 seconds each - diameter estimated about 2 miles.

In moving from one place to another a tail (approximately the same color - amber - as the object, appeared) which seemed to be about 5 times the length of the object. The shape of the object was either round or oval and appeared about the size of a C-47 plane. Just before disappearing it came very near the ground, stayed about 10", then climbed back to its original position at a very fast rate of speed, leveled off, and disappeared into the overcast ~~at 10,000 ft~~ (10,000 ft) heading 120°. Its speed was greater than 500 MPH in level flight. Visible for some 20 minutes. No noise or sound could be heard. The color of the object itself was an amber light but the intensity was not sufficient to obscure the outline of the configuration which was approximately round. During the up and down movement no maneuvering took place. Motions like that of an elevator - climbing and descending vertically. The exhaust trail was noticeable only during forward speed. At one time the object appeared to touch the ground.

NOTE: Appeared approximately 3 to 5 miles away from Lockbourne in immediate vicinity of Commercial Point (Reports from Clinton Cy Airport, Godman Fld & from pilot of plane in vicinity of Columbus indicate the distance to be much greater)

NOTE ON RELIABILITY: See incidents 30, 30b and 30c - corroborating accounts.

21. Exhaust trails Bluish streaks like a jet effect out from the right
22. Weather conditions Sky overcast
23. Effect on clouds Not stated
24. Sketches or photographs None
25. Manner of disappearance went out
26. Remarks (over)

Saw what he thought was a star but then he noticed the sky was overcast so it couldn't have been a star. It was a glowing object with a cone-shaped streak to the right. It glowed from white to amber. He says he first noticed it over the Lockbourne Power Plant; just southwest of here. The object was moving southwest and it changed from amber to red and then disappeared. Mr. Boudreaux, said the light was what he had been watching about 15 minutes or so and that through the field glasses it appeared to have bluish streaks like a jet effect out from the right. He stated that it went out while Capt. McLee was in the pattern. During the conversation he said it could be seen again (1935-1940).

6. Address of observer Lockbourne AAB, Columbus, Ohio
7. Place of observation Ground, Lockbourne AAB
8. Number of objects 1
9. Distance of object from observer An estimated 5 miles - altho rpts f/Godman Fld, Clinton Co Airport & relayed rpt f/Columbus, O, indicated much greater distance
10. Time in sight around 15 minutes
11. Altitude 5,000 ft
12. Speed 500 mph - as indicated by rpts f/Godman Fld & Clinton Co airport
13. Direction of flight Appeared to lower but performed elliptical, counter-clock wise course when it descended to horizon (1") remained stationary (3") returning original position (3")
14. Tactics See 13
15. Sound No sound
16. Size About size of runway light when viewed from 500 ft - apparently enormous - see 9 above
17. Color Red to amber-yellow
18. Shape Circular
19. Odor detected N/A
20. Apparent construction E/S
21. Exhaust trails Thin wisp of trail five times diameter of object
22. Weather conditions high overcast
23. Effect on clouds N/A - was under overcast
24. Sketches or photographs None
25. Manner of disappearance Faded and lowered into horizon
26. Remarks: (over)

Object first seen 15° above horizon in the West-Southwest of Lockbourne emitting a ruddy red light which changed to an amber-yellow at intervals not exceeding 1 to 2 seconds. Its size and magnitude were greater than that of any star - a good comparison of the size and magnitude would be a runway light at full intensity viewed from a distance of 500 ft. Shape - circular with the exception of a thin wisp of tail extending towards the horizon, the tail being 5 times the diameter of the object in length. For approximately 10 minutes it remained motionless, thereafter it descended to the horizon in about 4", hovered on the horizon in 3", then ascended to its original position in about 3", the course being elliptical, counter clockwise. It then faded and lowered toward the horizon disappearing at 1955. No sound was heard from the object at any time.

Note: Object appeared about 5 miles from Lockbourne, however info received f/Godman /Li and Clinton County Tower plus a relayed report from a pilot over Columbus, O., indicated that they all had observed a similar phenomenon in the same general direction and position at the same time.

RELIABILITY: Witness spent 7 yrs in AF in communications work including C. T. and Control Tower Operation. Holds valid CAA Certificate for Control Tower Operator and Aircraft Communications and has worked at Lockbourne in this type of work for over 1-1/2 yrs. Enthusiast of astronomy.

At approximately 1320 Sgt Cook from the CG's office notified the observer (T/Sgt Quinton A Blackwell) that according to Ft Knox Military Police & "H" Town State Police, a large circular object about 250 to 300 ft in diameter was over Mansville, Ky. Advised him to check with Army Flight Svc. They advised negative but shortly thereafter reported object over Irvington, Ky, then Owensboro, Ky. Object first sighted by Blackwell about 1345 to 1350 over south Godman Fld.

Verification: 1st Lt Orner (Detachment Commander)
Capt Garter (Operations Officer)
Col Hix (CG) sighted it about 1420

At approximately 1430 to 1440, four P-51's approached Godman f/south enroute I/Marietta, Ga. to Standiford Fld, Ky. 2nd Blackwell asked Flight Leader NG 869 to attempt to identify object. Accompanied by two other planes he proceeded south f/Godman. Fourth plane proceeded to Standiford Fld alone.

About 1445, Flight Leader (NG 869) reported sighting object "ahead and above - still climbing." At 15,000 ft he reported "Object directly ahead and above and moving about half my speed." Again "it appears metallic of tremendous size." Still later "I'm still climbing - object is above and ahead moving about my speed or faster - I'm trying to close in for better look". This was about 1515. Five minutes later the other two ships turned back. NG 800 reported "it appeared like the reflection of sunlight on an airplane canopy" Shortly afterward this same pilot (NG 800) resumed search going to 33,000 ft, 100 miles south but did not sight anything.

1. The first thing I noticed when I stepped out of the car was the smell of the sea. It was a salty, briny scent that filled the air. I had heard that the coast was beautiful, but I didn't realize how much it would affect me. The sun was shining brightly, and the water was a deep, vibrant blue. I felt a sense of peace and tranquility that I had never experienced before. I had heard that the coast was beautiful, but I didn't realize how much it would affect me. The sun was shining brightly, and the water was a deep, vibrant blue. I felt a sense of peace and tranquility that I had never experienced before.

Incident #

PFC Stanley Oliver was on duty at the Control Tower at Godman Fld when Col Hix's office informed the tower that an unidentified object (supposedly some 250 ft to 300 ft in diameter) was sighted over Mansville, Ky. This was approx at 1330 CST. Lt PFC Oliver saw the object southwest of Godman Fld. To him it resembled an ice cream cone topped with red. Could not ascertain if it were moving or not.

RELIABILITY: Witnesses: Col. Hix, (OO), Capt Carter, Lt Orner & M/Sgt Blackwell

NOTE: The report of alerting the P-51 aircraft contained in PFC Oliver's statement and the witnesses corroborates material contained in the other reports.

At approx 1420 7 Jan 48, Duesler accompanied by Lt Col E. G. Wood went to Godman Control Tower to observe an unidentified aerial object. Shortly after their arrival Col Hix, the Commanding Officer was summoned. At about this time Duesler first sighted a bright silver object. Then Col Hix arrived. Shortly thereafter a flight of four P-51's flew over Godman. Leader was contacted to pursue object. He assented and three P-51's climbed on the course, the fourth P-51 returning to base. Flight leader called to observe that "object was twelve o'clock high." Asked to describe it, he stated "it is bright and climbing away from me." He stated at first that it was going about 180 MPH. Then Control Tower lost sight of the flight but could still see the object. (In connection with this, Lt Col E. Garrison Wood who witnessed the sighting stated that while it appeared about 1/10 the size of a full moon, if the thing were a great distance away, as compared to the diminishing size of the P-51's flying toward it, it would seem that it was at least several hundred feet in diameter.) Shortly after 1501, the flight leader, stated that he was "at 15,000 ft and still climbing." He stated that he judged the speed to be the same as his or approx 360 MPH. One of his planes then asked him to level off but no reply was heard from the flight leader. That was the last message received from any member of the flight.

After dark, another or the same object appeared in approx 234° from Godman at 6° elevation. This body moved to the west (259°) and then down. The shape was fluid but generally round with no tail, the color changing from white, to blue, to red to yellow and had a black spot in the center at all times.

At 1600 CST it was obscured by clouds.

NOTE: Later, an astronomer was contacted who attempted to account for this phenomena as either Venus or a comet. (1)

At approx 1407, 7 Jan 48, Capt Carter was called by Lt Orner, AACS Detachment Commander, to come to Tower to witness an unidentified aerial object.

Object appeared round and white (whiter than the clouds that passed in front of it) and could be seen thru cirrus clouds.

After observing it thru field glasses for some 3 - 4 minutes, he called Col Hix's office. Col Hix, Lt Col Wood & Capt Duesler came to the tower shortly thereafter.

Capt Carter then suggested that a group of P-51 aircraft in the vicinity be contacted to pursue the object. T/Sgt Blackwell, Tower Operator, contacted the flight leader to take a look. Three planes proceeded on a heading of approx 230°. One of the planes (Mantell's) spotted it at 1200 o'clock position. Another plane relayed "This is 15,000 ft, let's level out" First speed as relayed by Mantell (180 MPH) Later, "object going up and forward as fast as I am" - or 360 MPH. Mantell then stated he was going to 20,000 ft and if no closer would abandon chase. Last radio contact heard by Capt Carter.

NOTE: Apparently, Mantell blacked out at 20,000 ft or proceeded on since the object apparently appeared closer (if such were the case) and then crashed thru lack of oxygen.

Does not seem to tally with report that the phenomena was "Venus or a comet"

On 13 Oct 47, at approx 5:30 a. m., Judge Henney in the company of O. D. Bates were travelling via a closed car north on highway to Winthropville about 14 miles north of Damascus. When had not yet broken. Sky to the northwest clear with stars visible. Object first observed traveling from west to east. When first noticed it was about the size of a large grape-fruit which increased in size to that of a large football. Object in view approx 3 seconds and moved eastward horizontally to the earth at meteoric speed. As first thought to be aircraft light but it kept getting closer to earth. Slightly west of due north at estimated elevation 10° it exploded throwing a brilliant reddish tinged cone of fire forward & downward. No noise heard. At the time of the explosion, Mr Bates commented to Judge Henney that there must have been terrific heat from the object to give it such a bluish tinge. No trail on the object. When it exploded fragments were thrown forward & downward giving off bluish light.

NOTE: A group consisting of Mr. A. E. Wilkerson, Mr. V. E. Morley (graduate of the CIT Jet propulsion course) both of the Guided Missile Section of the Defense Research Board, Lt Col V. B. Wilmont, AMO 5/Wright Field and Dr. J. K. Boulton examined the object to be a meteor in that the 10° elevation at first seen seen together with terrific speed observed would place the object in the stratosphere to be seen by the several groups who witnessed the phenomenon.

On 13 Oct 47 at 5430 - 5445 A. M., Mr. C. D. Bates in the company of Judge Rosemy were proceeding north on the highway to Minneapolis some 14 miles north of Memphis. It was not yet dawn. Sky to northwest clear with stars visible. First noticed a blue light to the northwest at an elevation of 25°. It was moving eastward with the speed of a meteor. First thought to be aircraft light but as it moved across sky it grew larger and kept getting closer to the earth - apparently travelling from NW to the SE, then first observed it seemed the color and size of a first-magnitude star. At a point slightly west of due north at about a 10° elevation it exploded, throwing a brilliant & reddish tinged cone of fire forward and downward. No noise was heard. The cone appeared to be composed of fine specks of incandescent material with some larger pieces - much like an explosion of a sky rocket. But at no time was any tail seen - simply a bright ball growing larger and then the explosion. The ball seemed to grow in size - an analogous comparison - the spread in diameter between a golf ball to a football. It appeared as a ball of blue fire until the explosion.

NOTE: Mr. Bates account tallies with that of Judge Rosemy with the exception that the judge apparently did not notice the blue tinge until the time of the explosion.

Dr. W. R. Giesbrecht and F. W. Samitsky going north on the highway between Grosse Isle and Warren about 0530 hours 13 Oct when they saw a green coloured object cross the sky. They estimated its distance ahead of them at about two miles and its altitude at about 1,000 feet. Its shape and size was that of a soccer ball. They watched it about 30 seconds and while they heard no noise the windows of the car were closed. It appeared to have a tail of green coloured sparks and they assumed it to be a flare shot at a very gradual angle and from a south-south-west direction. Toward the end of the 30 seconds it appeared to dip toward the ground and to go out before it would have struck the ground.

26. Remarks: **(Over)**

Saw the object from a point at Passaic Lake, north of Nettley at about 0530 hours 13 Oct. The weather was clear with little wind and he watched it for about 30-40 seconds. It was more or less round in shape, orange-yellow in color with a flame or tail or flame and sparks at the rear. It appeared to travel at a rapid speed and not to be passing very high. He estimated a plane of equivalent size would be at the altitude of about 5000 feet and it seemed to disappear rather than explode. It was not a flare or rocket, comet or falling star and at no time was there any noise.

While stationed on the British Columbia coast he had observed a number of Japanese balloons and while the object was fairly large it was not as large as one of these.

CONFIRMED REPORT: Robert Smith of 345 Bowman Ave., Dauphin, reported the incident to the newspapers. He was with Speers when the sighting occurred.

25. Manner of disappearance seemed to explode
26. Remarks: (Over)

While parked waiting for another hunter to join us, we noticed what appeared to be a very small ball of fire appear in the sky to the north-west of us. The time was 5:25 a.m. This object travelled from west to east, and did not appear to be of great height. The distance of flight as measured by the eye in the sky, I would judge to be about three quarters of a mile and the time 12 to 15 seconds. During its flight, this object left a path of what could best be described as sparking fire about two feet in length about the same depth as the diameter of the object, growing in depth as the object did in size, the maximum being the size of a small football. Just before reaching the end of its flight, the object seemed to lose considerable altitude, then burst into a shower of glowing fragments. The surrounding space appeared dimly lighted by the explosion for approximately 2 to 3 seconds, then fading out. It did not appear as a flash but more as a soft glow. We assume the object to be a meteor.

NOTE: While the observers came to the conclusion that the object was a meteor there are some peculiar discrepancies. Observers thought it strange that (1) time of flight was so long - 12-15". (2) that it appeared to move across the sky rather than in a downward movement until just before the end of its flight, at which time it seemed to drop somewhat.

WITNESSES: Two brothers of Chapman.

Two flying discs trailing jet-like streams of fire were sighted from the bridge of the tanker Ticonderoga, early Wednesday. Second Officer Glauco Lee Williamson radio-telephoned the United Press. The discs moved at tremendous speed out of the north horizon and curved in a westerly direction in a long low arc. Thought they were moving between 700 to 900 M.P.H. Didn't think they were meteors because they generally do not travel in pairs and usually fall to the horizon. Thought they were "flying discs"

Also observed by: Ordinary Seaman James S. Lynde who claimed he also saw "discs"

CHECK-LIST - UNIDENTIFIED FLYING OBJECTS

1. Date 11 October 1947
2. Time 1200
3. Location Phoenix, Arizona
4. Name of observer J. L. Clark
5. Occupation of observer Mine owner (Pilot)
6. Address of observer Route 12, Box 831, Phoenix
7. Place of observation at a mine located approx. 11 miles north or Northeast of Cave Creek, Arizona
8. Number of objects 1
9. Distance of object from observer 25 degree angle
10. Time in sight 45 seconds to 1 minute
11. Altitude 5/10,000 feet
12. Speed 350 miles an hour
13. Direction of flight northwest toward the southeast
14. Tactics Not stated
15. Sound No noise
16. Size about 3 feet in diameter
17. Color Reddish cast when the object had a blue ~~miss~~ for background. Black when it had a white cloud for a background
18. Shape resembled a flying wing
19. Odor detected Not stated
20. Apparent construction Not stated
21. Exhaust trails Not stated
22. Weather conditions Not stated with the exception of some clouds
23. Effect on clouds Not stated
24. Sketches or photographs None
25. Manner of disappearance Not stated
26. Remarks: (Over)

Mr. Clark's attention was first drawn to the object by his partner, Mr. Anderson. It appeared to be a black object which was travelling at an estimated height of 8/10,000 ft above the ground and was moving in a straight line from northwest to southeast. It was traveling some 350 MPH. It did not change elevation nor direction. From their range of vision where they were standing upwards to the object would be at about a 25° angle. It remained within their vision from 45 seconds to a minute. No sound was audible. Mr. Clark thought the nearest thing it resembled was a "flying wing." However, both men stated positively that there was no tail visible. From where they were the object appeared about 3 feet in diameter but could offer no estimate as to its size were it on the ground. As to color both stated that the object appeared red against a blue background and black against a white cloud. Ground wind was about 15 miles in velocity and was blowing in a northeasterly direction which would tend to carry any sound away from them.

Both men are pilots. Mr. Clark was a pilot in the U. S. A. F. for a period of 5 years, flying fighter type of jet planes during most of this period. Mr. Anderson was a gunner in the AAF for 2 years and is also a pilot. Both appeared level headed and not excitable, and were very sincere in making the report.

Four "flying saucers" were seen by Constable Kearsey's wife just before his arrival home at approx 11:30, on 9th of July. A Mr. John Jackson, a resident of St. John's and a friend of the family also witnessed them. They were flying in an easterly direction, and appeared to be four round figures that had passed overhead at terrific speed, flying side by side.

On looking skyward, Constable Kearsey, himself, perceived a huge jelly-fish flash across the sky. Could not determine the height and speed owing to the brief period it was visible. Could not determine color but there seemed to be a phosphorescent glow about it. It was round in shape and about the size of a barrel head, and appeared to be flying in a rocking motion.

Note: The last object was seen by Constable Kearsey, his wife and Mr. Jackson.

26. Remarks: (Over)

Object appeared elliptical in shape and had a diameter of 20-30 feet. When first seen it was at about 5,000 ft and traveling from 400 to 600 MPH. Its grey color rendered it difficult to perceive at a distance as it blended with the clouds. Although a jet-like noise was heard prior to the object's appearance no audible sound was produced while it remained in view. The tail of the object had two points on the outside area, visible as it made its two left-to-right circles which had an approximate radius of 1/4 to 1/2 miles. The object had what appeared to be a cockpit canopy in the center which extended toward the back and beneath the object. The "cockpit" did not protrude from the surface but was clearly visible with the naked eye. The object did not revolve on its own axis. It had no discernible landing gears nor propellers. It appeared to have an excellent air foil (tapered from wing tip to wing tip). Mr. Rhodes thought that the 10-15 MPH wind velocity which caused a rustling of tree leaves might have made it impossible for him to hear any noise connected with the object. He also stated that he thought the object was the Navy's new "Flapjack Plane" but altered his opinion since the object seemed to have no landing gears and no propellers. (The Navy ship is illustrated as having both). Rhodes managed to take one photograph of the object at its lowest point (about 2000 ft) and another as it turned out of its second spiral and started upward.

About 7 miles out of Clarion, Iowa, observer saw an object shoot across the sky in front of the bus he was driving. It was followed by four more. The height appeared about 1200 feet. Observer stepped out of the bus which was facing east and noticed some dots in the sky approaching from the opposite direction. They were flying about the same altitude at a speed of about 300 MPH. These 13 objects flew in a single file. Roughly, the objects were between a circle and an oval in shape. In appearance they looked like an inverted saucer flying thru the air. The thickest part seemed to be about 12 feet. The diameter could have been anywhere from 175 to 250 feet. They were dirty white in color. The second group disappeared into the NW sky in a matter of a few minutes. They made a noise as they passed overhead similar to an electric motor or dynamo.

23. Effect on clouds N/S
24. Sketches or photographs None
25. Manner of disappearance obscured by cloud bank
26. Remarks: (over)

De Rose saw a "brilliant, small round-shaped, silvery white object" which moved in a northwesterly direction as fast or possibly faster than a speeding plane at an estimated altitude of 1,000 ft or more. It stayed in view for eight or ten seconds until obscured by a cloud bank. The object reflected sunlight very strongly as though it were of polished aluminum or silver. Other than to say it "appeared round and irregular" de Rose was unable to determine its shape. It did not resemble any weather balloons he had ever seen. He stated "I can assure you it was very real."

Object traveled in a southeast direction at an estimated height of 10,000 ft or more and at a speed in excess of any aircraft he had ever seen. It was under observation for approx 60 seconds during which time it traveled over $\frac{1}{4}$ of the visible sky. No definite color or shape could be determined. The object appeared to roll from side to side three times, and one side reflected the sun strongly from its surface while the other gave no reflection. He thought the size about that of a C-54. He states that ~~before~~^{during} the time the object completed the roll it became very difficult to see and almost disappeared. No sound could be attributed to the aircraft.

Object appeared to be moving up and down and from side to side. At one time the object was covered by a cloud but the light could be seen thru the cloud. It was the same color as a star only very much brighter sometimes changing to a more reddish hue then turning white or yellow. At first it did not appear to be traveling at any speed. Then it seemed to go up and down and sometimes change off and go from side to side at what seemed to be a very great speed. It seemed pretty high in the air - too high to be any kind of a light from the ground. There was no beam. No sound could be heard. A faint exhaust trail was discernible when it moved up or down or from side to side. Finally it began to move away toward the SW at very great speed and disappeared over the horizon at about 20:00.

11. Altitude **N/S**
12. Speed **Hovered then moved with great speed**
13. Direction of flight **South West**
14. Tactics **Changed shape on ascent and descent - When it climbed it was right side up - (point up) When descending the point turned down**
15. Sound **none**
16. Size **larger than star**
17. Color **White changing to red to green**
18. Shape **Triangle**
19. Odor detected **N/S**
20. Apparent construction **surrounded with burning gas or something that emitted light**
21. Exhaust trails **When ascending & descending it appeared to trail a green mist**
22. Weather conditions **light scattered clouds with a haze toward the SW**
23. Effect on clouds **Could be seen thru the cloud which passed under it.**
24. Sketches or photographs **4 pencilled sketches**
25. Manner of disappearance **disappeared on SW heading at great speed**
26. Remarks: **(over)**

The object when first sighted appeared white then it turned red. Its real shape could not be distinguished until it descended. It then took the form of a cone or up-side-down triangle. (See Sketch "A")

Sketch "A"

When it ~~descended~~^{climbed}, it was right side up (Sketch "B")

On ascending and descending it appeared to have a green mist following it
See Sketch "C" — green mist

Speed could not be determined in miles per hour for it appeared to hover at spots, then, when it moved, it moved with great speed. After making a vertical descent and ascent it headed due SW at great speed and disappeared at approx 1955 EST. Distance from the field when first sighted was some 15 to 20 miles. There was no sound. The trail, maybe from exhaust, was green (at least thru the field glasses it appeared green) During the time it was under observation a cloud passed under it and the light shown thru.

According to this observer the object was not a balloon, a comet, star or any known aircraft. The light did not come from an aircraft's running lights. The whole object appeared surrounded with burning gas or something which emitted a light.

21. Exhaust trails **N/S**
22. Weather conditions **overcast**
23. Effect on clouds **could be seen thru overcast**
24. Sketches or photographs **None**
25. Manner of disappearance **disappeared over horizon on heading of 210°**
26. Remarks: **(over)**

Witness observed very bright light in the sky southwest of Clinton County AF Base which appeared to be the complete wing of an aircraft on fire. When viewed thru field glasses from the Control Tower the object would gain and lose altitude very rapidly without with barely any discernible forward or backward motion. At times it changed colors (from red to green, etc) At one time it disappeared behind the overcast but its light penetrated thru the overcast. At approximately 19:45 o'clock it began to move away from the field on a heading of 210° and disappeared over the horizon at approximately 19:55. (1st acct)

NOTE: See also 48, 48a, 48b, 48c & 33, 33a, 33b, 33c, 33d, 33e, 33f and 30 and 32.

At the time of the sighting the weather was clear over the Base, with a South West wind which was moderate. There was an overcast in the SE which appeared to be a layer approximately 1000 feet thick. The height of this overcast was approximately 5,000 ft. Object seemed to be about 5 miles from the field at an altitude of from 15,000 to 20,000 ft. The object which appeared stationary at first resembled the complete wing of an airplane on fire. No beam of light was projected. After observing it with the naked eye for some five minutes, witness went to control tower and looked thru field glasses and then decided that it was not a comet or a falling star to his knowledge of astronomy. With the aid of the glasses the object appeared to go from an altitude of 15,000 to 10,000 feet without any noticeable forward or backward motion, and then back up to its original altitude very rapidly. This occurred some 3 or 4 times. When it moved a red light would dominate and change to a green light and then back to its original color. It then started to recede on a heading of 210° going behind the overcast. However, the light was discernible thru the overcast. It then moved very rapidly away, stopping momentarily for 3 or 4 minute intervals and then disappearing over the horizon at 19:55. No sound was heard. No photographs were taken (From a signed statement (second account))

16. Size **N/S**
17. Color **fire-colored**
18. Shape **N/S**
19. Odor detected **N/S**
20. Apparent construction **like "fire"**
21. Exhaust trails **none - "left no trails or tails like a meteor or comet"**
22. Weather conditions **clear to scattered**
23. Effect on clouds **Ex. Light could be seen when clouds passed beneath it.**
24. Sketches or photographs **none**
25. Manner of disappearance **due west over horizon**
26. Remarks: **(over)**

Object seemed to be some sort of flare. Witness thought it was some aircraft in trouble. Requested the tower to take a look at it to determine if it were a flare. It appeared, with the naked eye, to be a very bright light the color of ordinary fire which lost and regained altitude in the manner of a parachute flare riding on thermals. The intensity of the light varied. This was attributed to clouds passing in front below; however, the light was readily discernible thru the clouds. The sky was clear to scattered. When the object was compared to the stars there was a decided difference. Stars were of the usual white; this object was yellow or flame color. When first seen it appeared to be about 4,000 ft but disappeared over the horizon would make it much higher. The movement was very slow in appearance and it left no trails or tails like a meteor or comet. Place of disappearance was approximately due west from position of observer.

20. Apparent construction N/S
21. Exhaust trails none
22. Weather conditions Clear night
23. Effect on clouds N/S
24. Sketches or photographs Forwarded a picture of Mars published in "Life" which showed an orange-red ball
25. Manner of disappearance fell into sea
26. Remarks: (over)

witness saw one object which split into two separate pieces and fell into the ocean. (See Mrs Krueger's account)

Feb 19, 1948, 1225 A. M. : Witness stated that she saw saucer. Tried to take picture but says object was moving too fast.

Feb 21, 1948 (Sat Night) : Reported seeing another "saucer"

Mar 11, 1948 10:50 P. M. : Saw mystery light drop and fall in the water
(Thursday night)

Apr 2, 4:40 P. M.

: Object resembles a small pilot-less plane - very bright metal - no motor noise and looks like the pictures of the German pilot-less planes. The center was ball shaped and very bright metal. It followed the coast line until out of sight. It came from the south and was heading north.
(same time date) Object appeared to fall in water. The metal wings were small and evidently broke as it fell since it appeared like sheets of metal dropping at the side. Witness states she saw this clearly.

Apr 24: 5:10 P. M.

Apr 2 and 3:

"saw guided missile of bright metal seen since 2 Apr."

July 1st, 1948

"There is activity in Wildwood again - the saucers have been appearing since 1 July." Mrs. Evans included picture shown in "Life" of the planet "Mere" which shows an orange-red ovaler circle.

In letter to President Truman she writes: "there have been more 'flying saucers' which appear on very clear nights - when there is a moon. They appear to come from the SE and from the ocean. Over the island they appear unsteady - like the one that broke. Then over the land they ascend quite high and move towards the NW, disappearing at not too fast a speed."

NOTE: Individual appears to be "amateur" No one (with the exception of Mrs. Krueger) appears to have seen the many sightings mentioned. This in spite of an alerted coast guard, police dept. and others.

22. Weather conditions **Clear night**
23. Effect on clouds **N/S**
24. Sketches or photographs **none**
25. Manner of disappearance **fell into sea**
26. Remarks: **(over)**

Objects were brought to Mrs. Krueger's attention by Mrs. Evans. Mrs. Krueger saw "a most unusual thing drop out of the sky. I think it was a flying saucer as I have never seen anything equal to it before" She then states that she saw what appeared to be 2 round orange colored discs or balls, the one being smaller, and that these objects appeared to descend vertically toward the earth in a slow and steady manner until disappearing from their sight. Mrs. Evans said that Mrs. Krueger observed two objects (apparently related) but that they were originally one object which separated at about the time Mrs. Krueger sighted it.

All witnesses (Mrs. Evans, her son and Mrs. Krueger) agree on the following:

Color and size - that of an old-fashioned gas light which had a yellow, red or amber shade. Outline was distinct and did not appear aflame or irregular. No noise or sound of kind. No smoke or exhaust trails seen. Shape oval to round. All stated that it was not to their knowledge a balloon, dirigible, flare, parachute or any other known object and all seemed to have a pretty good knowledge as to the appearance of the foregoing.

NOTE: Witness appeared calm and normally sensible in her responses to various questions.

11. Altitude 8,000 - 10,000 ft
12. Speed very fast - made P-51 look as if it were motionless
13. Direction of flight Southward toward Oakland
14. Tactics 1st object pursued horizontal flight; 2d object seemed to be going from left to right and right to left
15. Sound like engines in aircraft formation
No sound heard
16. Size 15-25 ft in diameter
17. Color white shiny
18. Shape circular like a ball
19. Odor detected N/S
20. Apparent construction N/S
21. Exhaust trails None
22. Weather conditions Clear
23. Effect on clouds N/S
24. Sketches or photographs None
25. Manner of disappearance Disappeared in flight
26. Remarks: (over)

Capt Ryherd saw two unidentified aerial objects at approximately 8,000 to 10,000 ft traveling above a P-80. He thought they were approximately 15 to 25 feet in diameter. In shape they were circular like a ball on the bottom but not completely round. The first flew straight and level but the second flying close behind the first at the same altitude seemed to be going from left to right and right to left - more like a guard in an aircraft formation. Due to the noise of the P-80, no sound could be heard from them. They did not leave any vapor smoke or visible trail. The weather was clear and Captain Ryherd and Lt Ward Stewart watched them until they disappeared in flight - presumably over Oakland headed toward the ocean.

NOTE: Capt Ryherd showed extreme sincerity throughout the interview

23. Effect on clouds N/S
24. Sketches or photographs None
25. Manner of disappearance flew out of sight
26. Remarks: (over)

Stewart's attention called to unidentified flying object by Capt Ryherd. Stewart estimates the P-80 at 250 miles on preliminary approach for landing at Hamilton Fld. Object was estimated to be following P-80 at three or four times its speed. A moment later another object appeared and flew a course described as something similar to a fighter's maneuvers when accompanying a heavier ship, on a left to right movement, over the object first sighted. The object continued this maneuvering until out of sight. Size could not be estimated but not believed to be above 6,000 ft altitude. Described as milky-white in color, and unlike any conventional aircraft seen.

On 28 June 47 ~~ARMSTRONG~~ in a P-51 bound for Portland, Oregon, by way of Medford, Oregon, at approx 1515 GST (course of 300°) and ground speed of 285 MPH, altitude 10,000 ft, approximately 30 miles NW of Lake Meads, Nevada, Lt Armstrong sighted 5 or 6 white, circular objects at 4:00, ~~maximum~~ altitude approximately 6,000 ft, on a course of 120° and flying at an estimated speed of 285 MPH. The objects were flying very smoothly and in a close formation. The estimated size of the white objects was approximately 36" in diameter. Lt Armstrong was sure the white objects were not birds since the rate of closure was very fast. He was certain too that the white objects were not jets or conventional aircraft since he has flown both.

AGENT'S NOTES:

Lt Armstrong was very sincere in the explanation and was not the exaggerating type. He merely stated what he saw and drew no conclusions.

During normal night-flying practice at 2230 hours on 16th Jan, one of British Mosquitoes ~~was vectored~~ was vectored on to an unidentified A/C at 22,000 ft. A long chase ensued commencing over the North Sea about 50 miles from the Dutch Coast and ending at 2300 hours over Norfolk. Two brief AI contacts were made but faded quickly. The unidentified aircraft appeared to take efficient controlled evasive action.

No explanation of this incident has been forthcoming nor has it been repeated.

Witnesses were walking when they observed a peculiar reddish light. They thought at first that the light was a shooting star but it left no streak. It appeared again and they thought it was a plane flying at very high altitude. Then a number of intermittent flashes were observed for three minutes. After observing the abrupt darts of light and hearing no hum of motors they concluded that it was definitely not a plane, as the maneuvers appeared too abrupt.

At 2015 hours, 6 July 47, Staff Sergeant Livingston's attention was called by a neighbor (a Mr. Herman M. Sockwell) to witness some "flying discs". The objects appeared in the west of Birmingham and were travelling southeast. They appeared to be 2000 above the horizon at a large angle at an unestimated distance away. They were approximately 2 ft in diameter, and round. They produced a dim glow of light and were travelling at an estimated speed of 500 to 600 MPH. The object (or objects) appeared to be travelling in a definite arc rather than straight, and as soon as one was out of sight, another would appear behind it but not always in the same path. One seemed to come straight up. The view of its source was obstructed by a nearby house but upon reaching the altitude of approximately 2000 ft it started off in the same direction as the others. Sergeant Livingston says that he did not at any time see more than one object at a time, and that it could have been one object it was his personal opinion that there were seven to ten objects. The discs were silent and appeared composed of a single light.

4. Name of observer Mrs Melars Waitland, Larkin, Douglas and Hamilton
5. Occupation of observer All employees of Hamilton, Metcalfe and Kansas City Bridge Company which concern is doing construction work at Harmon Fl.
6. Address of observer With above-named concern
7. Place of observation on board the "Burgeon" enroute from Sydney Nova Scotia to Port aux Basques, Newfoundland.
8. Number of objects N/S - saw flashes - 4 or 5 approximately 1 second apart and equidistant.
9. Distance of object from observer N/S
10. Time in sight N/S
11. Altitude N/S 30° off horizon 1 mi. estimated 1/4 mile range
12. Speed high velocity - faster than tracer bullet
13. Direction of flight NNE (30° East of true North)
14. Tactics horizontal flight
15. Sound N/S
16. Size N/S
17. Color N/S - object not seen - flashes were silvery to red in color
18. Shape N/S
19. Odor detected N/S
20. Apparent construction N/S
21. Exhaust trails N/S - possibly what was observed was itself the rocket charge
22. Weather conditions Clear and dark
23. Effect on clouds N/S
24. Sketches or photographs none
25. Manner of disappearance N/S
26. Remarks: (over)

Observers did not see the object but only four or five flashes approximately one second apart and equidistant. The flashes appeared silvery to reddish in color and were likened to the glow of a firefly excepting they were larger and at equal intervals. The witnesses did not believe the flashes were occasioned by either a shooting star or a plane, because of the evenly-spaced discharges or flashes, the color and the speed.

Corroboration: Capt Gullage, Master of the "Burgeon" also saw the flashes while standing on the starboard deck. He stated that he had seen the same thing at approximately the same time and location on the evening of 15 July 47 except at that time the object or flashes were traveling faster and frequently changed courses ("it changed course abruptly several times") and was headed generally to the SSW.

CHECK-LIST - UNIDENTIFIED FLYING OBJECTS

16. Size **As large or larger than C-54**
17. Color **black in color**
18. Shape **saucer - like that of C-54 (from rear) but without rotors or flying wings.**
19. Odor detected **N/S**
20. Apparent construction **N/S**
21. Exhaust trails **N/S**
22. Weather conditions **brilliant evening sky**
23. Effect on clouds **N/S**
24. Sketches or photographs **None**
25. Manner of disappearance **flew rapidly out of sight**
26. Remarks: **(over)**

Capt Jack Peck and his Copilot Vince Daly stated that on 4 Aug at sunset they sighted and followed a "flying saucer" northwest of Bethel, Alaska. The object which appeared as large or larger in mass than a C-54 and black in color appeared silhouetted against a brilliant evening sky. In order to avoid a possible collision (being unable at first to determine in what direction the object was moving) they pulled up to about 1200 ft in order to avoid possible collision. The object crossed their path at right angles to them. Seeing that it was moving away from them at a very rapid rate and flying at an altitude of from 500 to 1,000 ft they swung in behind it and followed it at an air speed of 170 MPH but the thing was out of sight in four minutes. They state the object was smooth-surfaced and streamlined and resembled ~~that of~~ a C-54 without motors (from the rear) and was without wings or any visible means of propulsion whatever. Wind was negligible and it was on a NW course.

Official in Charge of the Airlines for which Peck was working states that the pilot is not the "imaginative type".

Incident # 59

1. Date 12 Sept 47
2. Time 45 minutes after sunset
3. Location Midway Island to Oahu - beyond Becker Island
4. Name of observer Capt Stanley S. Griffin &
2d Officer Edward B. Polhemus
5. Occupation of observer Pilot and 2d officer, PAA
6. Address of observer N/S
7. Place of observation Beyond Becker Island (23° 34' N 169° 42' W)
8. Number of objects 1
9. Distance of object from observer 1 mile
10. Time in sight Six seconds
11. Altitude 9,500 to 10,000 ft
12. Speed 1160 MPH (1000 knots)
13. Direction of flight 350° then 109°
14. Tactics Abruptly changed course but observed horizontal flight
holding altitude
15. Sound N/S
16. Sigs N/S
17. Color N/S (See below - exhausted)
18. Shape N/S
19. Odor detected N/S
20. Apparent construction N/S
21. Exhaust trails N/S - light the color of an incandescent light
without appreciable blue & no reddish tinge
22. Weather conditions dark - 45 minutes after sunset
23. Effect on clouds No effect on clouds
24. Sketches or photographs None
25. Manner of disappearance Appeared to burn out 30 miles ahead of PA plane
26. Remarks: (over)

Plane had just passed Becker Island at 0535 GCT. At 0538 GCT an intense white light was observed 60° off starboard bow of plane. It appeared similar to the light of an approaching plane except that it was extremely intense. The color was that of an incandescent light without appreciable blue and no reddish tinge. It appeared on a course about 330° true some 5 miles away. Brightness grew in intensity (but without any change in color) to a point estimated to be one mile off starboard bow of the plane. When the PA plane switched over to manual control the object suddenly veered to an approximate course of 109° and then the bright light appeared to split into two parts and assumed a reddish hue. These two reddish lights did not have the intensity of the white light and appeared about a wing-length apart. As it changed its course the extraordinary speed was noted. It far outpaced the Pan American plane and the twin lights appeared to burn out 30 miles ahead. The entire phenomenon was observed for some six seconds. Object was estimated to be travelling 1,000 knots per hour.

NOTE: Both observers thought it could have been a meteor except for the manner in which it held altitude. At no time did it appear to get above or below 9,500 ft. When it disappeared it still seemed at about 9,500 ft. at no time did it give off sufficient illumination to reflect on the cloud formation at 8,000 ft.

Both observers were questioned as to possibility of optical illusion and the probability that the object dropped at an oblique angle but both firmly declared the object apparently changed course and that it appeared to hold altitude throughout the entire time observed.

PAA plane was eastbound from Midway on magnetic course 98, which is approximately 110° true, and flying at 9,000 feet at about 205 knots. It was flying on automatic pilot with drift in the right-hand seat in the control cabin and Polhemus in the left-hand seat. It was dark and there were cumulus clouds of about .4 density. The sun had set 45 minutes previously.

26. Remarks: (over)

Incident # 60

Mr Legge asserts in his signed statement that he was certain the object was not a shooting star (asserted he had seen shooting stars before but never had seen anything to compare with it) nor was it a plane. He states it was too "lit up" and traveling at too great a speed. It wasn't on fire or it would have fallen in the water. The thing was traveling at the rate of a shooting star but much closer at an estimated height of around 6,000 ft. It was visible for some 15 seconds and came out of the northwest heading eastward. The circle seemed about the size of a barrel head and the trail appeared around 15 feet long and made the whole object resemble a cone. He states "a shooting star usually leaves a temporary streak - this object left no streak only an after-glow." The circle was a bright red, the color of a flame. The after-glow (cone-shaped) was a fainter shade.

22. Weather conditions **N/S**
23. Effect on clouds **N/S**
24. Sketches or photographs **None**
25. Manner of disappearance **"hardly in sight before it disappeared"**
26. Remarks: **(over)**

Witness stated that if the object were a shooting star it was larger than any he had ever seen and much brighter than anything he had ever observed in the sky. It appeared round with a yellowish tail, which was not as bright as the circle. The circle itself appeared to be sort of red and yellow and about the size of a large dinner plate. It went so fast that it was hardly in sight before it disappeared. It was traveling much closer than a shooting star. Witness sure it did not in any way resemble a shooting star nor a plane.

Incident # 60b

Albert Sams is a twelve-year old boy. He was alone when he saw the object. He thought it was flying at the height of a plane at high altitude but that it looked strange for an airplane because it was lit up so brightly- it was not carrying lights ("planes do have a light or two") It was of a bright reddish yellow color. Witness saw it only momentarily because of the tremendous speed. "I saw it only for a minute because it was traveling at a terrific speed."

His mother, Mrs. Sams, is the Post Mistress of the town and after he ring her son's description felt that it answered the description of the "flying disc". She added that Albert didn't believe the thing was a plane since "it wouldn't shoot down like that did" and "besides it was too 'lit up'".

Incident # 11

1. Date 8 Sept 47
2. Time 230 P. M.
3. Location Logan, Utah
4. Name of observer Mr and Mrs. Richard Anderson
5. Occupation of observer N/S
6. Address of observer Logan, Utah
7. Place of observation Logan, Utah 40° 45' N 111° 54' W
8. Number of objects Approx a dozen
9. Distance of object from observer N/S
10. Time in sight N one to 2 minutes
11. Altitude 2,000 to 3,000 ft
12. Speed "faster than birds"
13. Direction of flight north
14. Tactics circle city in approx one to two minutes observing group formation.
15. Sound N/S
16. Size about the size of pigeons
17. Color white and illuminated
18. Shape N/S
19. Odor detected N/S
20. Apparent construction N/S
21. Exhaust trails N/S
22. Weather conditions N cloudy
23. Effect on clouds N/S
24. Sketches or photographs None
25. Manner of disappearance in flight to the north
26. Remarks: (over)

Mr. & Mrs. Anderson stated that they in company with a Mr. & Mrs. Gaylon Caldwell saw approximately 12 objects flying in group formation at about 2,000 or 3,000 ft in the air. In size they resembled pigeons but seemed to be white and illuminated. They were certain they weren't birds as they appeared to be moving faster than birds and they circled the city in approximately one to two minutes. Saw no wing movement during the flight. They couldn't make up their minds as to exactly what they saw.

24. Sketches or photographs None
25. Manner of disappearance N/S
26. Remarks: (over)

Incident # 64

Mrs Hedstrom was the first to notice an object traveling at a terrific speed in a northeasterly direction. While discussing this with her husband and a neighbor all three saw ten similar objects proceed rapidly in the same direction in the form of a triangle. As they were disappearing 3 objects peeled off the left flank and proceeded in a more northerly direction. The remaining objects closed ranks and proceeded on a ~~NE~~ NE course. Five minutes later another group of 3 objects were seen proceeding in the same direction in triangular formation. Three to five minutes later another triangular formation of five or six objects was observed going in the same direction. Then a few minutes later the three witnesses saw 35 to 50 flying in a triangular formation still in the same direction. Approximately 20 to 25 minutes later similar objects were noted coming back over the city in a southwesterly direction. Generally they were in groups of 3, 5 and 7 and followed each other at approximately 5-minute intervals.

Detective Frazier and Mr. Hedstrom did not think they were meteors as

- (1) they flew on a level line and did not appear to drop
- (2) Observed triangular formation

They did not think they were birds as:

- (1) They were lighted from the inside.

Were not the reflection of city lights since:

- (1) They observed triangular formation and changed course from NE to SW direction.
- (2) Observed to close ranks and form a triangle again.

Incident # 65

Mr Wenyon advised that he noticed a projectile approximately 15 inches in diameter cross his course at right angles moving in a west-to-east direction and traveling at an altitude of 1,000 ft. It was traveling at a very high rate of speed - from 1,000 to 1,200 MPH. Several jets of flame were spurting from the object. Then in October of 46 he observed a similar projectile at 1,400 ft while flying over the same beach. This object was also traveling from west to east.

It was Mr Wenyon's assumption that he saw some sort of rocket being tested. He associated a series of airplane crashes that had occurred around that time with the appearance of this missile and thought that the proper authorities should be notified.

22. Weather conditions N/S - well after dark
23. Effect on clouds N/S
24. Sketches or photographs None
25. Manner of disappearance simply vanished in mid-air.
26. Remarks: (over)

About 9 o'clock, well after dark, Lt Col F. L. Walker, Jr. CSC, of the Scientific Branch, Research Group, saw a low flying object appear over the top of a barn to his left traveling in an absolutely straight line in an arc of about 70° moving from north to south. The object appeared as a bright orange glow of flame and left behind it a long, straight, narrow white streak of flame similar to the streak left by a tracer bullet and itself, covering an arc of approximately 20° or 30° . There appeared to be a fine mist of smoke trailing behind this streak which vanished very quickly. The object took about 3 - 4 seconds to cover the arc of 70° and then simply vanished in mid air. The path traveled was absolutely horizontal.

Witness states he never observed a comet which acted in this manner and was of the opinion that he had sighted a "flying saucer".

25. Manner of disappearance disappeared in puff of dark gray smoke
26. Remarks: (over)

Observer first noticed a white smoke trail and while searching for its source he saw an object 4 to 6 ft in length x 10 to 14 inches wide and of a metal color which gave off a very bright reflection like highly polished chromium. It was first observed at 1030 position to the autoobile. Upon reaching a 1200 position it was engulfed in a puff of dark gray smoke about 10 ft in diameter. There was no change in the color of the smoke. The object was traveling at terrific speed and seemed to be in a very shallow dive. When the puff of smoke appeared the object disappeared completely; no particles were observed falling from it. The point of disappearance seemed to be about 800 yards in front of Switzer. There was no possibility of being hidden by vegetation or terrain. It appeared rectangular for the most part but once it appeared to have a very slightly curved top surface. It seemed more rocket-like than disc-like, and seemed tilted in a semi-circle.

NOTE: Agent notes that the point of observation would afford a sweeping view thru 40° of the canyon and the south side of Webber Creek. (Switzer was not definite as to what part of the field of view he had seen the object and ~~the~~ indicated that it could have been as far as the horizon.) Any object or particles thereof would be in a six square mile area of wooded mountainous terrain full of canyons and ravines.

Agent thought that witnesses could have seen a conventional type aircraft which due to the distance from which it was observed presented no distinguishing features for the short period it was under observation. However, agent could not account for the smoke trail.

While prospecting in the Cascade Mts some 5,000 ft above sea level he noticed a reflection. Upon looking up he saw a disc proceeding in a southeasterly direction. Upon sighting it he placed his telescope to his eye and observed it for some 45 to 60 seconds. At the time the disc was sighted it was banking in the sun. He observed 5 or 6 but concentrated on one. Said they did not fly in any particular formation and he estimated them to be about 1,000 ft from where he was standing. He estimated that they were around 30 feet in diameter and that they had a tail. They made no noise. He noticed that the combination compass and watch in his possession reacted in a very peculiar manner, the hand waving from one side to the other but that this condition corrected itself immediately after the discs had passed out of sight.

NOTE: Informant appeared to be very reliable and advised that he had been a prospector in the States of Montana, Washington and Oregon for the past 40 yrs.

John Snyder, a former pilot of B-34 in the Army Air Corps advised that he was sitting on the steps of his home around 10:45 P. M. the night of Aug 6, 1947 and that his neighbors, the Kelly family, were also sitting on their steps. All parties were facing east. Snyder noticed an object which emitted a bluish-white flame pass quickly thru the air. It was traveling NE to SW. Using his experience in the Army Air Corps he estimated the speed as between 400 to 500 MPH. The object did not lose elevation and left either a smoke or condensation trail in its former path. The vapor lasted for about 2 seconds. A hissing sound accompanied the passing. The sound was moderate and not nearly as loud as that occasioned by a rocket ship.

On Oct 8th or 9th, 1947 while witness was driving on the NW outskirts of Las Vegas, Nevada, he observed what appeared to be a sky-writing pilot's trail. He stopped his car to observe it and noticed two things which troubled him. (1) Where the missile should have been at the head of the steadily appearing trail there was nothing visible or was too small to see (estimated to be a distance of about 5 miles or less) and (2) the speed appeared startling. I thought it was between 400 and 1,000 MPH but thought more precisely to be from 700 to 800 MPH - too fast for conventional aircraft. The trail he thought could have been smoke, vapor from intense speed or any unknown substance. The color was almost white - much like a cumulo-nimbus cloud and of approximately the same density and it was 15-20 minutes before the trail disintegrated.

The object took a radius of from 5 to 15 miles to complete a turn (he estimated closer to 10) in an attempt to judge its exact course over topographic features of the surrounding countryside. He stated that since the climate in this vicinity is extremely dry and it was almost a cloudless day that the speed would have to be exceedingly great to create such a trail.

Two Army officers reported to Office, Director of Intelligence, Hq. Alaskan Dept., Ft Richardson, Alaska, saying that they had witnessed an object passing thru the air at tremendous speed. Object appeared to be a sphere and did not give the impression of being saucer-like or comparable to a disk. Altho, the first officer stated that it would be impossible to give minute details, the object appeared to be 2 to 3 feet in diameter and did not leave any vapor trail in the sky. He stated the object appeared metallic and silver in color (like that of air lenses). As there was scattered cloud formations at 10,000 ft and the object was noted to be traveling below the cloud formation they were able to determine the approximate altitude. To the second officer the object appeared approximately 10 ft in diameter and compared it to half the size of a full moon on an ordinary night. He estimated the altitude to be only 3,000 or 4,000 ft. The object appeared broadside to the second officer and gave no evidence of a spinning motion or did he note a reflection. To him it appeared to be a dull metal finish. In conclusion the second officer pointed out that the object was definitely traveling against the wind.

25. Manner of disappearance Lost in clouds
26. Remarks: (over)

At 1600 P. M., 1 Aug 47, midway between Everett, Mass. and the Bedford Radio Beacon, pilot and navigator sighted an unidentified aerial object. The following conditions existed:

Visibility: good
Cloud coverage: 6-8/10ths; tops: 10,000 ft
Wind at 8,000 ft: 270/25 MPH
Aircraft: 8,000 ft
Airspeed 265 MPH
Course: 240° magnetic.

Mr White, Navigator, called Mr Powell's attention to a bright orange object slightly below the level of their aircraft. Mr Powell was unable to see the object from his position (left side of cockpit) as he had no visibility to the right and down, from his position. But, upon glancing out his side window he noticed at a 45° angle to the left an unidentified flying object. It was one mile away at approximately 7,800 ft. Mr. Powell then bounced to obtain a better view. He described it as being the length of a P-40 fuselage, blunt at both ends, cylindrical in shape and having a bright orange hue. The object had a definite shape and there was no suggestion of gaseous dissipation (as there would be if the orange color were the result of exhaust from a rocket or jet aircraft. It was traveling at approx 150 MPH, on a course 200° magnetic. It was under observation for approximately 30 seconds. Mr. Powell lost sight of the object when a cloud came between their aircraft and the object.

AGENTS' NOTES: Mr. A. O. Powell is a graduate of the Aviation Cadet Flying Training Program, and has over 4,000 command pilot hours to his credit. He appears calm, and intelligent and not given to flights of fancy. He has a fear of publicity. He stated that he has seen numerous pilot balloons, radioelectric devices and tow targets but that the object was definitely not one of them.

26. Remarks: (over)

Urie had sent his sons to the river for some tops from his boat. As they were overdue he went to look for them, when he noticed some 300 feet away some 75 feet in the air a sky-blue object silhouetted against the steep walls of the canyon on the far side. (The canyon is about 400 ft deep and 1000 ft across at that place.) The object was traveling 75 feet in the air (300 ft below the rim of the canyon) and so was plainly visible. Urie states that the sky-blue color would probably not be noticed against the sky. He states that "it did not spin like a top". However, he did say that the trees over which it passed almost directly did not just bend with the wind as if a plane had gone by but that they "spun around on top as if they were in a vacuum."

Keith Urie, a son, eight years of age said he saw the machine coming down the canyon heading from east to west and following the contours of the ground. Billy, age ten, another son, saw it almost immediately. Both watched it fly out of sight behind a tree in a matter of moments.

AGOST'S NOTE: Urie seemed completely sincere about the incident and appeared to be a sober, middle-aged man. The boys stated that they had never before seen one of the discs.

Agent could not locate Commissioner L. W. Hawkins but J. B. Brown, who accompanied Hawkins at the time stated that he and Hawkins could hear a roar. They looked up and saw 2 objects flying at great height which might have been between 4,000 and 6,000 ft. He could give no estimate as to size and said they could have been several miles away. He and Hawkins were satisfied that had seen something and were very doubtful if the objects were planes.

From a newspaper account (Times News, Twin Falls, Idaho, Friday Aug 15, 1947) County Commissioner Hawkins said he had seen an unusual object in the air the same day as Urie's experience (Incident 75) and that a sound resembling the echo of a motor caused him to look upward and there he saw two circular objects which reflected light. They were traveling at a great speed and at higher altitude than most planes.

An unusually loud roar attracted the observer and upon looking up he saw a group of very light-colored objects at an altitude of about 50° bunched rather closely with no regular formation. The group could have covered 1-1/2° angular diameter in the sky. There might have been 10. As a group they were proceeding as to cover 30° of arc estimated of course in 10 to 15 seconds. If one of them subtended 1/10° with a possible wing spread of 100 ft it would put it at a distance of over 10 miles, and quite invisible for a light object. With 30° arc of travel at a 10 mi distance would be roughly 5 miles in 15 seconds or 20 mi per minute or 1200 mi per hour. Rather fast for a bomber. A 50 ft object at 5 miles dist. would be about 600 mi. per hr - also fast going. The only concrete evidence of form appeared on the left tangent of the group - two dark shaped forms.

These could have been tail wings. But since they were in no regular formation, and seemed to be moving irregularly like a swarm of bees why shouldn't all of them have had wings? The loud roar suggests they may have been much closer and rather small. The sky background was hazy blue with the sun behind. One plane towing a lot of balloons, the witness thought, would have been easily recognized.

On 30 June 1947 at about 0910 MST, William G. McGinty, P-80 pilot was flying at 25,000 feet over Grand Canyon, Arizona, heading south towards Williams Field, Arizona, when he saw 2 round objects going at inconceivable speeds straight down. One of the unidentifiable objects followed the other seconds apart. Due to their speed he could see only that they were circular and possibly light gray in color. In his opinion the objects were approximately 3 feet in diameter. He estimated that the objects would have probably hit the ground approximately 25 miles south of the South Rim of Grand Canyon, Ariz.

AGIT'S NOTES: Lt McGinty gave his permanent address as: S. A. M. C., Point Laga, Port Muenene, Calif.

Mr. Minorewski observed a strange metallic disk on three occasions thru the theodolite while making his pibal observation during a six-month period. Mr Minorewski last observed the disk in April 1947 at 1100 Z Pibal Observation when the balloon was at 15,000 ft. He followed it for 15 seconds. It was moving on level flight from east to west to the far north of the station. The object was a metallic like chrome - shaped something like an ellipse with a flat level bottom and a dome like-round top. ~~The disk appeared below the (western)~~ balloon, was much larger in size (in the instrument) and shown like silver. It was impossible to estimate the height or speed of the disk except that it appeared to be moving rather rapidly.

Mrs. Baron, a co-worker observed the disk when her balloon was at about 27,000 ft. She thought the color to be a dull metallic luster.

Mr Saito's attention was attracted by a flashing object in the sky. He stated that this object had the appearance of a large balloon with a silver disc (not unlike a camera lens) suspended below it. Although he could not distinguish a cable connecting the two objects he assumed that they were attached since they kept the same distance apart and seemed to move in unison. It was at approximately 6,000 ft and slowly ascending moving in a northwesterly direction toward the sea. He observed the object several minutes during which time the silver disc attachment flashed off and on which he attributed to the rays of the sun striking it as it revolved. He discontinued watching after a few minutes and upon trying to locate it again could not do so owing to the cloudiness.

Savage stated that he realized that the object was not a conventional aircraft when it was at a 45° angle from him. It appeared elliptical and as it moved closer it seemed perfectly round and flat. It had no appearance of being spherical and had a ratio of diameter to the thickness of approximately 10 to 1, appearing thicker in the center. He judged the altitude to be between 10,000 to 12,000 ft and the object left no trailing effects. The bulk seemed to be that of a B-29's at an altitude of approximately the same height. The speed was 3 times that of a jet-propelled aircraft. There were no protrusions and there was no noise although he thought he detected a swishing sound "like the rushing of air" after this object had passed him. The sound was not loud and did not last very long. He did not know if it was his imagination or expectation. The color appeared frosty white at all times. The object appeared to diminish in size and speed as it moved away in a direction of 350° to the north. Savage was sure that the object was not a meteor and it was his opinion that it was radically built and power - possibly atomic.

Incident # 83

Observer flying a National Guard AT-6 was on an easterly heading pointing toward Gowen Fld and had flown that course for a minute when there appeared in the left hand portion of his field of vision a round black object. Due to its erratic movement he first thought it a weather balloon. Calling the weather station he ascertained that no release had been made for several hours. He then exposed 10 second's duration of 8 mm motion picture film. Centering his gaze once more on the object he observed it to roll so that its edge was presented. At this time it flashed once in the sunlight. It then appeared as a thin black line. Then it performed a maneuver which looked as if it had begun a slow roll - (Barrel roll) which instead of being completed was broken off at about the 130° point. The object rolled out of the top of the maneuver at this point and observer lost sight of it. Performance viewed against background of clouds. Object appeared relatively as the size of a twenty-five cent piece. Observer could not estimate the speed. He thought tho that it was very great.

The design portrays the movements of the object. At all times the object appeared black. Positions (1) (2) and (3) show the jerky rising motion. Position (4) is where it rolled presenting its edge to the observer. It then followed the dotted line, rolling over the top of the maneuver and disappearing at position (5).

While walking on U. S. Highway #92 7 July 47, at approximately 1 mile east of Lakeland, Fla., between 1300 and 1400 hours observer's attention was attracted skyward by a swishing noise which seemed to end with a shrill whine. He saw 5 shiny objects going upward from 5,000 ft to approximately 7,500 feet in just a few seconds (between 15 - 30). They were traveling northeast and in an upward direction as they disappeared in flight. He thought they were a mile from him when first sighted. Griffin observed 2 spots on either side of the missile and an additional spot in the center which he believed to be the trail. The objects did not have wings and the witness thought they were jet jets. It appeared to him that the leading jet (of plastic appearance) was towing the four other shining objects.

NOTES: Griffin made a model of what he saw and forwarded it as an exhibit.

Observer was mostly concerned with the accompanying ray phenomena rather than with the "saucers" themselves.

Perceived what appeared to be milky white rays in the sunlight which seemed to cross and recross each other like searchlights at night. It did not appear as reflected light for the rays were not spaced and were not as close together and they "criss-crossed". However, they did seem to converge toward a center but did not meet in that center. In the vortex - a radius of about 18 inches (it seemed from where observer sat) that there were spinning objects of some red substance about the color of the semi-precious report "Cornelian". These fragments were sharp and irregular and shining. They were flying as if to a magnet. This effect was momentary. Witness then looked to see if the "saucers" were still there. They were but the same illusion occurred again and observer was again conscious of the secondary phenomena. But by this time the "Saucers" were out of sight.

NOTE: Observer seemed to be speculating on ray warfare, but did not think that "our army would shoot deadly rays over a crowded highway"

Observer after reading reports about disc-shaped aircraft recalled a nearly forgotten incident which occurred some 20 miles NW of Raberbschopshien, Germany after the last war.

Object first sighted some 8 to 10 miles to observers' front - at approx 5,000 ft high. It rapidly approached, descending slowly. About a mile away it stopped its horizontal motion but continued a slow oscillating ~~down~~ descent similar to a descending parachute. Then it suddenly dropped in a spiral motion. Tried to locate the place where it fell but it became too dark. The first impression of the observer was that it was a cloud but it was traveling at right angles to the wind.

On 6 July 1947 while flying from Ogden, Utah, to Kansas City, Mo. at 10,000 ft in a B-25 pilot noticed a very bright object low and to his left, approximately 10 miles away. Time was 1:45 P. M. and position was approximately 100 miles west of Kansas City. His first impression was that it was the top of a water tank. After checking his position he again looked to his left (elapsed time 5 seconds). He saw a round, disc shaped object, very bright and silvery colored which seemed to be flying 1 to 2 miles off his left wing at 11 o'clock position at 11,000 ft. The brightness of the object was very great. Diameter of the object was estimated as 30-50 feet. It was traveling in the same direction at the same rate of speed (210 MPH) as the observer. However, when he started to turn into it, it completely disappeared. Weather conditions at the time were CATU.

26. Remarks: (over)

Mr. Kneke who was driving the car noticed the object first. He called it to the attention of the other occupants. Mr. Zorn thereupon opened the window nearest him and observed the object moving at an unknown rapid velocity at an unknown altitude (which he estimated at 10,000 ft) and which Mr. Kneke thought was between 8,000 and 10,000 feet. When first sighted the object was to their right and forward of the automobile at an unstated elevation and apparently moving horizontally in a Northerly direction such as to cross the highway from right to left. The object was seen by all the occupants of the machine. Mr. Zorn could observe no details other than the shape was uniform with no protuberances such as the wings of a plane. It was too distant to enable stereoscopic visualization. There was some color specular reflection which seemed to change in intensity as the object receded until lost from sight (after an estimated 30 seconds from the time first noticed.) Mr. Zorn could not explain how it disappeared except that he thought the reflection angle could have changed abruptly. The sun was to the rear of the automobile. Mr. Kneke thought at one time he saw vapor trails.

25. Manner of disappearance lost in brilliancy of the moon
26. Remarks: (over)

At approximately 2120 Central time, a light, with a brilliance slightly greater than a star appeared from the West traveling in an easterly direction at a high rate of speed. It first appeared slightly above the horizon of a clear moon-light night. There was no audible sound. It appeared to be at great height altho it was impossible to determine the altitude. It traveled a zig-zag course with frequent bursts of speed similar to a water but not spurts and stops across the surface of water. Directly overhead, it changed course 90° into the South. After 5 minutes it turned southwest and was lost in the brilliancy of the moon. At 2145 Central it was no longer possible to observe it.

A call was placed to Maxwell Fld operations concerning the phenomenon and inquiry was made if any experimental aircraft were scheduled for a flight in the vicinity but the reply was negative. No plausible explanation was offered for the unusual action of this source of light which acted contrary to any known aerodynamical laws. Two of the above noted observers were rated pilots and the other two, air intelligence officers.

26. Remarks: (over)

During their lunch period (1215-1315) 19 May 1947 a member of a train crew called attention to a silver object in the sky approaching from the Northeast. It appeared to be traveling at great speed. The object appeared extremely small and therefore the altitude could not be estimated. It did appear higher than the top of Manitou Mountain which is some 1,000 feet higher than the city. No definite shape could be determined even with the aid of the tower binoculars. The men were certain that the object was not a conventional aircraft since it did not have any of the physical characteristics. Upon reaching the area just north of Manitou the object remained in the area for several minutes during which time it executed maneuvers such as climbing, diving and reversal of flight. This happened every few seconds. The distance and location between views prompted two of the men to think that there may have been more of the objects in the sky. At times it seemed to hover and then it would start on another flight path. When last seen the silver object was climbing very fast towards the west almost directly into the wind.

A report received at Fairfield-Suisun tower from McClellan Airfield
over at Sacramento stated a report was received from Sacramento
Air Depot C-47 #7488 flying near Roseville, Calif. to the effect that
an object was sighted at 1845 P.M. the trailing revealed colors of
flame with red and green predominating. It was traveling at a
low speed and low altitude - still toward Roseville at approximately
38° 50' N, 121° 04' W. McClellan tower asked the pilot to investigate
and at 1945 the pilot reported a small fire at 38° 50' N and 121°
which became considerably larger. Fairfield tower requested the pilot
flying C-47 to also investigate the fire for possible aircraft accident
and the pilot reported over the fire at 1947 P.M. time at a position
of 38° 50' N and 121° 03' W. The fire was burning in a triangular
shape over a small area and went out at 1955. The particular point
in the fire acted to burn with a bright blue-green flame.

Incident: #98

Incident occurred just before break of day. Object appeared to Mrs Brimberry as a large round ball of fire about 26 to 30 inches in diameter with a "tail" of approximately 20 feet in length. This "tail" seemed to diminish as it approached the ground. It appeared to have suddenly "gone out" just before it reached the earth. It possibly could have hit the ground a great distance away but it seemed to have landed in the open vacant field adjacent the house. This field is about 15 acres in area. Mr Brimberry described the object as being "almost round, maybe a little oval or saucer-shaped and giving off a bright light. It appeared to be spinning. He did not see the tail when he observed the object.

Incident occurred just before sun-up and it was pretty light outside.
