MEMORANDUM FOR RECORD:

1. Conversations with the Chief of North Am Br and Office, Deputy Dir P&O (AE) reveal that P&O has not received any evaluation of the flying saucer type of phenomenon. North Am Br feels that P&O, and themselves in particular, have a direct interest in this phenomenon because, until it is properly evaluated, a possibility exists that this phenomenon may have foreign implication.

2. Col Ligon, Intelligence Group, ID, suggests that this Division request ID to make a study on this whole subject insofar as it pertains to continental U.S. ID will properly coordinate their efforts with the AF in this matter.

Evaluation Study of Phenomenon

Detailed investigations of all incidents reported to involve unusual flying objects during the period June 1948 to date have been conducted by a special project group of Headquarters, Air Materiel Command, Wright-Patterson Air Force Base, Ohio. The continuing efforts of this project are directed toward establishing the identity of each unusual object reported. Single or seemingly related incidents which appear to involve objects that might represent some unusual man-made device or activity are fully explored by both the AMC project personnel and other specialists, such as those of the RAND Corporation (formerly Project RAND).

Of some 210 incidents, approximately twenty (20) per cent have been explained. The majority of these involved misidentification of synoptic weather balloons. Others involved observations of airborne cosmic ray research equipment, bolides, meteors, and in one instance, the daylight observation of the planet Venus. Only two reported incidents were determined to have been hoax.

To date there has been no tangible evidence which would support a theory that any incidents are attributable to activity of a foreign nation. There are no highly secret experimental Projects of the U.S. Government that could be responsible. The possibility of foreign devices would represent achievements which defy many well defined limits in aeronautical science.

The Air Materiel Command of the USAF is continuing investigations of each unexplained incident. In addition, they are utilizing the consulting services of a number of agencies and specialists. Results are reviewed on a continuing basis and are used in formulating probable explanations for sightings that still lack positive identification.

The ID feels that if complete data were available the remaining 80% of the reported sightings could be eliminated as due to natural meteorological phenomena or domestic weather balloons and the like. The larger number of actual reports of unidentified objects is thought to be primarily due to the publicity given "flying saucers" in the public print and in some official circles.

CSGID-ID 9-350.05 SUBJECT: Evaluation Study of Phenomenon (Flying Saucers)

TO: CSGPO FROM: CSGID DATE: 18 APR 1949 COMMENT NO. 2
Lt Col Ligon/5509/fnl

1. The "Evaluation Study of Phenomenon" at Inclosure 1 hereto represents the current Intelligence Division, GSUSA, evaluation of the "flying saucers."

2. With reference to paragraph 2 of Comment No. 1, CSGID recognizes the interest of defense planners in any object capable of being "shot all the way from Russia," and will continue to keep the matter under scrutiny. Any change in the evaluation contained at Inclosure No. 1 will be promptly transmitted to CSGPO.

3. CSGID is unable to verify Mr. Winchell's statement that "flying saucers * * * are now definitely known to have been guided missiles shot all the way from Russia" and has no information as to the basis for the statement or "information" on which it may have been based. It is, however, possible that Mr. Winchell published this item in an attempt to obtain some official statement from the NME on the subject.

PRAVDA SAYS STATE DEPARTMENT CONVERTED INTO BRANCH OF GENERAL STAFF

MOSCOW--RUSSIA LOOSED ANOTHER BLAST AT THE ATLANTIC TREATY TODAY ONLY A FEW HOURS BEFORE IT WAS TO BE SIGNED, CHARGING THAT IT SEEKS TO INTIMIDATE STATES UNWILLING TO SUBMIT TO ANGLO-AMERICAN DICTATION. THE ATTACK APPEARED IN THE OFFICIAL NEWSPAPER PRAVDA. IT ALSO ACCUSED THE UNITED STATES OF STEPPING UP THE AMERICANIZATION OF WESTERN EUROPEAN ARMIES THROUGH A "NEW MILITARY LEND-LEASE." "THE WHOLE CONTINENTAL MILITARY SYSTEM IS BEING CONVERTED INTO AN INTEGRAL PART OF THE AMERICAN MILITARY SYSTEM UNDER THE LEADERSHIP OF THE AMERICAN GENERAL STAFF," PRAVDA SAID. "THE EXPORT OF VARIOUS ARMS AND INTENSIFIED PREPARATION FOR AGGRESSION HAVE BECOME ONE OF THE MOST IMPORTANT TASKS OF AMERICAN FOREIGN POLICY. THIS TASK IS UNDER EXECUTION BY THE STATE DEPARTMENT, WHICH U.S. RULING CIRCLES TO AN INCREASING EXTENT ARE CONVERTING INTO A BRANCH OF THE GENERAL STAFF OF THE ARMED FORCES."..... UP(6:59A)

FRANCE WANTS TO BASE DEFENSE OF WESTERN EUROPE ON ELBE

PARIS--FRANCE IS REPORTED TODAY SEEKING AMERICAN BACKING FOR A PLAN TO BASE DEFENSE OF WESTERN EUROPE ON THE ELBE RIVER INSTEAD OF THE RHINE. AUTHORITATIVE DIPLOMATIC SOURCES SAID THAT FRENCH FOREIGN MINISTER ROBERT SCHUMAN WILL PUT SUCH A PLAN BEFORE U.S. OFFICIALS DURING HIS CURRENT WASHINGTON VISIT TO SIGN THE ATLANTIC PACT..... LIEUT. GEN. GEORGE REVERS, FRENCH CHIEF OF STAFF, IS REPORTEDLY A STRONG BACKER OF THE PLAN WHICH HAS AS ITS PRIMARY AIM AN EFFORT TO KEEP SOVIET TROOPS AS FAR FROM FRANCE AS POSSIBLE IN EVENT OF WAR..... ANOTHER FACTOR IN THE PLAN IS PSYCHOLOGICAL. THE FRENCH PEOPLE GENERALLY ARE SAID TO BE RESIGNED TO THE POSSIBILITY THAT SOVIET FORCES COULD OVERRUN FRANCE IF WAR SHOULD BREAK OUT SUDDENLY. IF RUSSIAN ARMIES COULD ESTABLISH A RHINE BRIDGEHEAD THIS WOULD BE CONSIDERED AS A SERIOUS BLOW TO FRENCH RESISTANCE IN A REPETITION OF THE GERMAN "BLITZKRIEG" IN 1940. FRENCH STRATEGISTS BELIEVE THAT IF THE FIRST LINE OF DEFENSE WERE MOVED TO THE ELBE, FRANCE WOULD PUT UP GREATER RESISTANCE. INS(4:00A)

WESTERN GERMAN POST OFFICE EMPLOYES TOSSED OUT BY RUSSIANS

BERLIN--BRITISH MILITARY AUTHORITIES IN BERLIN REPORTED TODAY THAT THE RUSSIANS HAVE TAKEN POSSESSION OF A POST OFFICE IN THE WEST STAAKEN AREA OF BERLIN THROWING OUT WESTERN GERMAN EMPLOYES. THE BRITISH SAID THE ACTION TOOK PLACE ON APRIL 1. WEST STAAKEN IS OFFICIALLY IN THE SOVIET SECTOR BUT IT HAS BEEN RUN BY THE WEST SINCE THE SPLIT BETWEEN EAST AND WESTERN ADMINISTRATIONS AND THE BLOCKADE. THE ACTION TAKEN BY THE RUSSIANS IS THE LATEST IN THEIR SERIES OF MOVES APPARENTLY AIMED AT TIGHTENING THEIR HOLD ON THEIR SECTOR OF THE CITY AND CRUSHING POLITICAL OPPOSITION. INS(7:03A)

SECRETARY OF DEFENSE

CHARLES WOOD(ABC-This Week Around the World):...By Saturday, Johnson already had eliminated nine committees and boards of the Armed Services as useless. James Forrestal had been unable to end bickering of the Services because his Office was understaffed, but on Saturday Pres. Truman signed into law a bill creating an Under Secretary of Defense, giving Johnson the strength he needed to do the job thoroughly...In 1936, Johnson became Assistant Secretary of War under Pres. Roosevelt. He proved himself a hard-working, competent administrator, plugging for preparedness at a time when such action was extremely unpopular... Johnson's appointment is looked upon by many as a political favor for services rendered. But there are few who deny his competence for the job. 3 April49-1

DREW PEARSON(ABC): The Navy Department: Former Sec. of Defense Forrestal will be appointed a $1-a-year man and given a Navy airplane for a cruise around the world, chiefly on a vacation. While I have been critical of Forrestal in the past, I think he deserves a rest, and I want to congratulate him for the fine way he has cooperated with Louis Johnson, his successor. 3 April49-2

WALTER WINCHELL(ABC): Evanston, Ill.--One of Hitler's top agents is now lecturing at Northwestern University. His name is Edward V. Sitler--it rhymes with Hitler. This man, according to a signed statement from the Northwestern U campus, continues to expound his Nazi ideas and feelings. This Edward Sitler...was an American citizen. He threw his citizenship away and became a naturalized German when he started to work for Hitler in Berlin as the director of Goebbels' radio section. Atty. Gen. Tom Clark, please, in the name of all the wonderful Americans who died for the rest of us, kick this ingrate out of the country. 3 April49-3

B E R L I N

ED HAAKER(NBC-News Roundup, from Berlin): Berlin's Russian-licensed press today has let loose with a verbal broadside. For the first time, Russia's German-language papers are commenting on the Soviet memo on Moscow's objections to the North Atlantic pact...Such is the virulence of today's...editorials that again there is...talk over here on the possibility of the USSR quitting the U.N. Such is the virulence of these comments that there can be little doubt that the Russians see in the pact a mighty barrier to their aspirations for world domination. 3 April49-4

ROBERT S. ALLEN(MBS): Berlin--Gen. Clay has cabled Washington not to be surprised if Russia suddenly lifts the Berlin blockade. 3 April49-5

EFFECTS OF COUNTERBLOCKADE

ED HAAKER(NBC-News Roundup, from Berlin): There is new evidence that our counterblockade is creating economic difficulties, if not economic havoc, in the Russian zone of Germany. Recently, after a trip through the Russian zone, I remarked on the dearth of activity in the Eastern zone industrial cities,and today one report that seems authentic states, in effect, that unemployment there is rising by leaps and bounds...The moot point, of course, is what effect this pinch will have on Russian reasoning. One point of view here is that it will finally force them to come to terms and lift their own blockade of Berlin; the other is that they have such little regard for the well-being of populations that it will have no effect at all. 2 April49-6

LYFORD MOORE(ABC-This Week Around the World, from Berlin): Marshal Sokolovsky's successor (Gen. Chuikov)...in a quick examination,...doesn't seem to have any particularly outstanding qualities that would lead to his

being chosen as the new Military Governor of Russian Germany. Western observers here feel the switch means that from now on the real executive power in the Russian occupation will be wielded by civilians. It's expected that the Soviet Union's highest civilian representative here, Ambassador W.S. (Seminov ?), will be the Politburo's key man in Germany. Heretofore, he served as Sokolovsky's political adviser, but his office has gradually been given more importance, and he has taken over a number of the functions formerly exercised by Sokolovsky. American political experts think Sokolovsky's replacement is closely tied up with the formation of an Eastern Germany Communist state. They point out that it would be decidedly advantageous to the Russians, for propaganda purposes, to have control of such a state in the hands of an ambassador rather than a military man. A minority group here feels that the Russians want to call off the blockade. These observers think Sokolovsky's recall really means the Soviets are getting out of Germany--the man most closely associated with a policy that failed.

DREW PEARSON(ABC): Berlin, exclusive--Gen. Clay has sent a very discouraging report to Washington. He says that American efforts to make the Germans more democratic have failed, almost completely, that the Germans are openly talking about the need of a new leader to restore Germany to its former power. What is even more tragic, anti-Semitism and strong-arm tactics are on the increase. Gen. Clay's report is so gloomy it probably will never be published. 3 April49-8

ROBERT S. ALLEN(MBS):...One of the questions being discussed in the secret Foreign Ministers' Conference in Washington is increasing industrial production in Germany...The new plan is to raise that (limitation of German output to the 1936 production) to the 1938 level--the year before Hitler ran amok. France is strongly against this scheme which is being urged by U.S. military and financial interests. 3 April49-9

H.V. KALTENBORN(NBC):...Schuman, more than Bevin or Acheson, will determine the success or failure of these (Washington) discussions. For good historic reasons France fears Germany...If we go on destroying German industrial plants because they might some time produce arms, we will prevent German and European recovery. The six billions we spent last year, and the five billions we propose to spend this year to restore Europe could easily be wasted if 50 million Germans in the heart of Europe could not become self-supporting. With all the food and mineral resources of Eastern Germany in Russian hands, Western Germany must become a strong industrial state to live. 1 April49-10

ALLIED MILITARY GOVERNMENT

WALTER WINCHELL(ABC): The State Department--Jack McCloy can have the top job at Berlin. "Chips" Bohlen is slated for Minister to Paris, the number two spot. Nobody wants to be the Ambassador to Moscow. The latest to turn it down is Ambassador Caffery, now in Paris.
3 April49-11

DREW PEARSON(ABC): New York--A display of German-manufactured goods, many sponsored by former Nazis, will open in New York on Saturday--much worse than the music of Walter Geiseking. 3 April49-12

WILLIAM L. SHIRER(MBS):...For the first time since before the war there will be an exhibition in this country of German industrial products. The German industrial exhibit, under the auspices of the Military Government, opens here, in New York, Saturday. A lot of people here don't like the idea, and there may be some trouble. They say they don't object to the Germans trying to do a little honest business like everyone else, but they hate to see the Nazis coming back under our auspices. Gen. Clay has said not a Nazi will be allowed to go to New York to show his wares, but there's no doubt, either, that many of these German firms exhibiting here are run by the Nazis, either openly or secretly...This may surprise you, but your Government will support Fascist Dictator Franco at the meeting of the U.N. Assembly which opens Tuesday...

ARMY COURT-MARTIAL

WALTER WINCHELL(ABC): Lt. Col. Paul T. Graves goes on trial next Tuesday at Ft. Dix. The charge is embezzlement. Many top generals will testify for him. It will be another battle of the brass which the U.S. Army would like to keep quiet--very much. 3 April49-14

CRITICISM OF NAVAL ATTACHE

ROBERT S. ALLEN(MBS): Military Meddler: Two U.S. Senators are quietly

investigating the very peculiar activity of Capt. T.V.(Mercer ?), U.S. Naval Attache in Franco Spain. Mercer is a warm admirer of the dictator and has been openly critical of U.S. policy toward Franco. According to information in the hands of the two Senators, Mercer has been acting as if he were the U.S. Ambassador in Spain. The Senators want to know how Mercer gets this way and why an officer of this type is being kept in Madrid. 3 April49-15

JOHN MECKLING(CBS-World News, from Ottawa):...To Americans, this peaceful union (Newfoundland and Labrador annexed as Canada's tenth province) means greater security of our North Atlantic flank. Two major American military bases are located in Newfoundland...And it means unchallenged access to the iron ore fields of Labrador... 1 April49-16

U.S.-SOVIET RELATIONS

DREW PEARSON(ABC): The State Department, exclusive: Just before I left Washington, I learned that Sec. of State Acheson is much more worried about the latest Russian note against the North Atlantic pact than he admits. The reason is: the American Embassy in Moscow has sent a top secret cable warning that the Russian note may be intended to pave the way for outright aggression by the Red Army. The two most likely spots marked for aggression are Iran and Finland, but the Embassy also passes along the rumor of Soviet troops moving toward Norway. The Embassy also warns that the next 60 days will be the most critical in the history of our relations with Russia, for, during the period, the Embassy believes Russia is more likely to strike, than later, because the North Atlantic pact nations will not have had a chance to ratify their treaty. I'm not predicting whether the Embassy is right or wrong, but I do predict that Russia will soon renounce its own defense treaty with the French--a very serious step which, according to standard diplomatic procedure, could be the forerunner of war! 3 April49-17

OCCUPATION OF JAPAN

BILL COSTELLO(CBS-World News, from Tokyo): According to well-informed observers in this occupied capital, a change of far-reaching significance is taking place in occupation controls. In a nutshell it's this: that major economic planning for Japan is now being done in Washington and is being integrated with the world-wide ECA program. When the occupation started, it was assumed that a peace treaty would follow within a reasonable time, and it was tacitly understood that Gen. MacArthur would run the occupation, with only general policy supervision from Washington. Now, it is apparent that the occupation may last for years. At the same time, American overseas commitments have expanded so greatly that every dollar has to produce maximum returns. That being true, it has become hazardous to let Japan fritter away American aid as it has done for the last three years...Economic strategists, as a result of the European program, now have a yardstick with which to measure Japan's progress. Unless Japan can prove that American funds are being used wisely, then aid for Japan may be cut off. 1 April49-18

OVERSEAS AIR BASES

JOHN FOSTER DULLES(MBS-Meet the Press):...If the U.S. were to plant (bases?) for atomic bomb planes right on the Soviet frontier, I think that would be an offensive action which would almost surely start off a war. I don't think we plan to do that. LAWRENCE SPIVAK: Suppose we were to plant them in England? DULLES: I think that it's all a question of degree. I don't see any reason why there should not be air bases in England. If you turn the thing around, if the Soviet Union had atomic bomb bases on the Mexican border, we would take offense about it; we don't take offense about it if they're somewhat farther off. SPIVAK: But, with the range we have in air power today, there really isn't too much difference if some of our bases are in England, or in Africa, or in France. Certainly, if we're going to have a defensive alliance, we're going to have to have bases somewhere. DULLES: That's quite true, but in these matters there's a psychological element that comes into play. If you brandish your fist under a fellow's nose, he takes more offense about it than if you brandish your fist a little ways off. ... 1 April49-19

ROBERT S. ALLEN(MBS): Secret Report: From time to time this program has reported a number of shocking facts about the Greek Aid Program. This is costing the American taxpayer hundreds of millions of dollars. Disclosures about the incompetence, graft and obstructionism of the reactionary and undemocratic Greek Government, and the incompetence and

bungling and waste of U.S. officials in Greece--these disclosures have not set well with certain high authorities in the State Department and the Pentagon Building. There has been a lot of muttering. Tonight, this program can report a complete official confirmation of these shocking disclosures. This official confirmation is contained in the report in the hands of the Joint Congressional Committee on the Marshall Plan ...For some unexplained reason, this report has been suppressed. Personally, I suspect that this suppression is due to the State Department and the Military; there is a very good reason why they would not want this report made public. It is very embarrassing to them, but I have a copy of this report, and here are a few of its many shocking charges and condemnations:...Further, that there are too many American officials in Greece, and that a large percentage of them are being paid $10,000 a year in salary, plus an additional $7,000 for rents and food allowances; also, that many of these Americans are incompetent and are doing a poor job; also, that there is too much American ostentatiousness in Greece, that many American officials are driving around in big shiny new cars and are living in a high-handed and showy manner...The report also charges that the Greek tax system is archaic, that the wealthy pay practically no taxes at all. Similarly, the report says that it is impossible for the ordinary man to get justice in the Greek courts. It is such conditions, the report declares, that are making Communists in Greece, not Russia, not the guerrillas...Here is the conclusion of this suppressed report: "...It is impossible to win in Greece by purely military operations; nor will money, alone, buy the Greek people. Social reforms and better and more honest administration are fundamental to Greek recovery..." That is what this report that has been suppressed said. It is a despairing report because it shows that despite all that has happened the high brass in the White House, the State Department and the Pentagon have learned nothing; that despite the billions we have already spent, and the billions we are committing ourselves to spend under the North Atlantic pact, we are not winning the cold war against Russia... 3 April49-20

WALTER WINCHELL(ABC): The White House: The U.S. will withdraw its 1946 resolution condemning Franco at the U.N. and will resume diplomatic relations with Spain unless public opinion--that means you--stops it. 3 April49-21

I R A N

WILLIS CONOVER(WNDC):...If the Russians ever decided to invoke that treaty (with Iran) they could overrun the country almost without firing a shot. Loss of Iran, with its oil, would be a major blow to the Western powers. 3 April49-22

"FLYING SAUCERS"

WALTER WINCHELL(ABC): Washington--This will not be confirmed by anyone in authority in Washington at this time; but, if anybody denies it, the denier will be a liar. The "flying saucers," never explained by anyone in authority, are now definitely known to have been guided missiles shot all the way from Russia. 3 April49-23

U.S. AIR FORCE

WALTER WINCHELL(ABC): Curtiss Wright will announce tomorrow the newest airplane engine. It will give our biggest strategic bombers 2,000 miles more striking range. It is the turbo-cyclone. It can carry our long range atomic bombers around the world, without refueling--nonstop to Russia and back. 3 April49-24

WINSTON CHURCHILL

DREW PEARSON(ABC): Aboard the Queen Mary, exclusive--...I can reveal that Churchill's optimism is based on his belief that Stalin will soon die.. Churchill believes the fiercest battle (among the 13 surviving members of the Politburo) will be over control of the army and the secret police. The fight over the army, he predicts, will be so violent that no Russian leader will let the Red Army go beyond Russia's borders for fear it might mingle with the outside world and be turned against Moscow. 3 April49-25

WALTER WINCHELL(ABC):...Mr. Churchill did mention...that fights are sometimes avoided because somebody dropped dead, but that is not what any fighter who wants to win can ever count on. Mathematically, of course, peace still has a chance, about the same chance that a pigeon has against the slowest jet bomber. 3 April49-26

ATLANTIC ALLIANCE

WILLIAM HILLMAN(MBS): The President (in his speech tomorrow at the signing of the Atlantic Alliance) has an opportunity to stress the self-help and mutual aid that is the foundation of this treaty... 3 April49-27
