UNIDENTIFIED FLYING OBJECTS

In response to a letter directed by him to Mr. Robert Cutler, Special Assistant to President Dwight D. Eisenhower,reflecting that he "might have some information about the rocket in Texas," Wladyslaw Krasuski, 5457 Joseph Campau, Detroit, was interviewed November 7, 1957, and furnished the following information:

FOIA(b)(6)

Born [redacted] in the State of [redacted], Krasuski was brought from Poland as a Prisoner of War to Gut Alt Golssen,approximately 30 miles east of Berlin, Germany, in May, 1942, where he remained until a few weeks after the end of World War II. He spent the following years at Displaced Persons Camps at Kork, Strasburg, Offenburg, Milheim and Freiburg, Germany. He attended a radio technician school at Freiburg and for about a year was employed in a textile mill at Laurachbaden, Germany. He arrived in the United States at New York, May 2, 1951, via the "S.S. General Stewart" as a Displaced Person, destined to the Reverend Father Petro Walkowiak, Hamtramck, Michigan; his alien registration number [redacted].
(b) (6)

Since May, 1951, he has been employed at the Gobel Brewery, Detroit.

News report of mysterious vehicle in Texas causing engines to stall prompted him to communicate with the United States Government concerning a similar phenomenon observed by him in 1944 in the area of Gut Alt Golssen.

According to Krasuski, during 1944, month not recalled, while enroute to work in a field a short distance north of Gut Alt Golssen, their tractor engine stalled on a road through a swamp area. No machinery or other vehicle was then visible although a noise was heard described as a high-pitched whine similar to that produced by a large electric generator.

NW 90290
DocId:34714592 Page 9

An "SS" guard appeared and talked briefly with the German driver of the tractor, who waited five to ten minutes, after which the noise stopped and the tractor engine was started normally. Approximately 3 hours later in the same swamp area, but away from the road where the work crew was cutting "hay", he surreptitiously, because of the German in charge of the crew and "SS" guards in the otherwise deserted area, observed a circular enclosure approximately 100 to 150 yards in diameter protected from viewers by a tarpaulin-type wall approximately 50 feet high, from which a vehicle was observed to slowly rise vertically to a height sufficient to clear the wall and then to move slowly horizontally a short distance out of his view, which was obstructed by nearby trees.

This vehicle, observed from approximately 500 feet, was described as circular in shape, 75 to 100 yards in diameter, and about 14 feet high, consisting of dark gray stationary top and bottom sections, five to six feet high. The approximate three foot middle section appeared to be a rapidly moving component producing a continuous blur similar to an aeroplane propeller, but extending the circumferance of the vehicle so far as could be observed. The noise emanating from the vehicle was similar but of somewhat lower pitch than the noise previously heard. The engine of the tractor again stalled on this occasion and no effort was made by the German driver to start the engine until the noise stopped, after which the engine started normally.

Uninsulated metal, possibly copper, cables one and one-half inch to two inches in diameter, on and under the surface of the ground, in some places covered by water, were observed on this and previous occasions, apparently running between the enclosure and a small concrete column-like structure between the road and enclosure.

This area was not visited by Krasuski again until shortly after the end of World War II, when it was observed the cables had been removed and the previous locations of the concrete structure and the enclosure were covered by water. Krasuski stated he has not been in communication since 1945 with any of the work crew of 16 or 18 men, consisting of Russian, French and Polish POWs, who had discussed this incident among themselves many times. However, of these, Krasuski was able to recall by name only Franciszek Grabowski, no address known, described as then about 50 years of age and presumed by Krasuski to have returned to Poland after 1945.

UNIDENTIFIED FLYING OBJECTS; IS - X.

Re Detroit Teletype to Bureau, 11/7/57, captioned "UNIDENTIFIED FLYING OBJECTS; IS - X."

Interview of WLADYSLAW KRASUSKI, aka. WALTER KRASUSKI, reported in Blank Memo, five copies of which are enclosed herewith for the Bureau, was conducted by SA CASSIUS RATHBUN.

No indication of irrational or otherwise abnormal behavior by KRASUSKI was observed during the interview.

KRASUSKI advised that his communication was directed to Mr. ROBERT CUTLER rather than to President EISENHOWER after seeing Mr. CUTLER's picture and identification with the President's Office in a local paper.

KRASUSKI resides with his wife, nee JOANN WISNIEWSKI, married in 1952 at Detroit, and four small children, in a single residence in an old Polish neighborhood at 5457 Jos. Campau Avenue, Detroit. No previous record located in Detroit Indices identifiable with KRASUSKI or his wife.

On 11/7/57, WILLIAM RECKNAGEL, Manager, advised IC PAUL DESMOND that records of the Mich. Merchants Credit Association, reflect only credit inquiries concerning WALTER KRASUSKI during 6/56 and 3/57 and 6/57, which confirm his local address and employment.

Dear Mr. Liesch:

This is to acknowledge your letter of October 2, 1966.

Please be advised that this office does not have the information you have requested. It is possible that the United States Air Force, Wright-Patterson Air Force Base, Dayton, Ohio, may be the proper agency to contact.

Very truly yours,

Paul H. Stoddard
